**This Therapy Ladder can be configured to work in deep water by being bent to return to the pool wall like a regular pool ladder.**

### Boseman Ladders by Spectrum

These ladders are made with 1.5" tubing so the handrails are easy to grip and the treads are heavy duty fiberglass with a non-skid finish. They require 1.5" wedge anchors cemented in the deck for mounting just like regular ladders so will only fit in the anchor location, but can be removed if required. Anchors and escutcheons not included, must be ordered separately. Custom made to your pools required dimensions. **FOB Factory**

### Easy Ladder

These Ladders are custom made fiberglass pool ladders, designed for use where temporary extra access is required. Construction is one piece, with integral sides and risers. The Deck adapter is bolted on. They are designed to sit on the pool bottom and deck, snugly, and no extra anchoring is provided. The steps are 31" wide, riser height is 9 3/4" and tread width is 12", and non-skid. The ladder comes with a detachable set of wheels to make moving easier. Both corner and end wall models can be made. Three colours are available, yellow, light blue or medium blue. Ladders are custom made to dimensions provided, and trimmed to fit depth, floor slope, and coping as required. Some assembly is required. Handrails are stainless steel. Normally 2 people are needed to lift the ladder out of the pool. Dimensions noted are from pool bottom to deck level. **FOB Factory**

### Aqua Step HD - Pool Access Step

These are lightweight pool steps designed for use where temporary access is needed. Once lifted out of the pool one person can wheel it away on the integral wheels. Custom made to accommodate various pool depths, deck profiles and bottom slopes, as per dimensions provided with order. The top steps come with brackets and fasteners to bolt the step to the deck, and can be customized. The treads are non-skid plastic, 10" deep and 30" wide, with ss braces for a 500 pound load. Handrails are plastic coated aluminium for strength and durability. The number of treads can be customized, but remember that riser height must be 10" or less. Treads are large and easy to climb but note that the handrails do not overhang over deck but stop at the end of the stairs, at the pool edge. The Aqua Step is shipped knocked down, some assembly is required. Sides are removable to make taking the stairs in and out easier, risers when installed are fixed.

### Aqua Step-ADA Compliant

These are US ADA Compliant Pool Steps and are custom made to order for each pool. Not as easy to take in and out as the Aqua Step HD, but provides more support/ease of use to challenged users. These are shipped knocked down for economic transportation, some assembly required, and anchors are provided to fasten the top step to the deck. Sides and risers, and a standard top step are included in the price. Please see drawing for more details. A pool deck drawing must be submitted with each order to determine the correct number of steps needed, and if a custom top step is needed. The maximum recommended riser height is 8.5". 8 to 10 steps quoted on request.
