Rescue Cans and Tubes

Rescue cans and tubes provide rescuers extra flotation to support swimmers in trouble, and something for the distressed person to hang on to; while allowing the rescuer to tow them to shore. The rescue can is designed for use in surf, and has a cavity for a pocket mask, while the rescue tubes are for lakes and pools. Model 79 rescue tube is 49" long by 6" wide, and 4" thick, providing a lot of soft flotation, while Model 80 is 36" long by 3" thick where a more compact aid is desired.
