

Gabby's®

Re-usable Pool Diapers

Gabby's swim diapers are designed to allow water to sieve through while retaining solids. The inner layer is 100% cotton flannelette which remains soft against the skin, yet is durable after multiple washings. The outer layer is an oxford nylon which resists the damaging effects of chlorine and prevents the seepage of stool into the water.

Waterproof Pool Pants

The health departments in some jurisdictions require a waterproof containment swim diaper for baby's and tots. The requirement calls for a pant made of waterproof material to fit over top of a regular diaper like above re-usable pull on.

This Gabby's waterproof pool pant is designed for that purpose. It is worn over top of another diaper and therefore meets health department regulations.
