

## Oxygen Deployment System

This complete system includes a bag that organizes both oxygen and airway supplies into a single space, making it efficient and user friendly. It is made of the highest quality materials (Made in Canada) and ideal for heavy use, and damp environments; such as aquatic centres.

System hardware includes: D-size oxygen cylinder (new toggle top style), regulator unit with a lifetime warranty, oxygen masks with tubing, and a set of Guedel airways.

Already have oxygen equipment? No problem. Each component of the deployment system (bag, regulator, etc.) is available as a separate part on these pages.

Item No	Description	Price
19 06 12	Oxygen Deployment System (Complete)	\$429.95

## Oxygen Regulator - All Brass

It has a flow range of 0-25 LPM and its adjuster has 12 click settings. The regulator comes with an all-metal body, a low profile gauge protected by a rubber boot, an inlet filter, a permanent valve seal, and a lifetime warranty.

Item No	Description	Price
19 06 11	Oxygen Regulator	\$134.95

## Professional First Aid Deployment System

Choose from two versions of our Deployment system. The difference being one has an integrated oxygen component. Both systems meet WCB level 3 requirements.

You can also choose between a completed kit (bag and supplies) or choose the bag alone and fill it with the supplies you have on hand. All equipment included with the complete bag are of EMS quality, and the kit, if ordered with oxygen, includes an O2 tank and regulator (the regulator is backed by a lifetime warranty).

This first aid bag is unique in that it is a premium, semi-rigid deployment system that organizes your airway management and trauma supplies into a single, efficient and user-friendly space. Features include: internal and external lid pockets, dividers for customizing interior space, loops and pouches in front panel for equipment organization, colour coded zippers, and detailed reflective tape on the exterior.

The kit bag is a bit larger and is designed to hold an oxygen tank and regulator, with access through a large end pocket. Made in Canada, this bag is constructed from high quality durable fabrics and hardware, and is backed by a lifetime guarantee.

Item No	Description	Price
24 19 01	FA System (with O2) - Complete	\$1039.95
24 19 02	FA Bag Only - (accepts O2 gear)	\$294.95
24 19 03	FA Kit (no O2) - Complete	\$568.95
24 19 04	FA Bag Only (no space for O2 gear) - Bag Only	\$298.50
