Pulsatron Auto-flush Valve Detail

Double Walled Containment Tanks

These are polyethylene chemical storage tanks that are sold as tightly fitted nesting pairs to be space efficient. All come with a large quarter turn cap, a flat spot for pump mounting, and a port for a pump suction line. The only color available is light blue, and poly tanks are 100% recyclable.

Item No	Dimensions (Dia X Ht)	Capacity/USG Inner/Outer	Weight Pounds	Price

12 15 22	48" X 47"	220/278	132	\$POR
12 15 23	48" X 60"	300/375	162	\$POR
12 15 24	60" X 61"	500/650	326	\$POR

Double Walled Containment Tanks

Polyethylene Tanks for Chemical Storage

All the closed top tanks listed below are cylindrical, with integral tops. All the tops have a screw on fill port, the cover /hole size is listed. Tanks can be ordered with a bulkhead fitting at the bottom, but it must be requested with order. Plumbing parts; for instance nipples and valves are not supplied unless ordered separately. Bulkhead fitting sizes vary with the size of the tanks. All the closed top tanks can also be used as secondary containment vessels by cutting off the tops, which can be easily done with a carpenter's handsaw, or power tools.

Closed Top Tanks

Item No	Model	Dimensions	Capacity	Price
