

CLOCKS

Pool Clock

12" round case with high-impact, shatterproof acrylic lens. Moulded high-impact ABS case. Battery powered

Item No	Description	Price
16 26 01	clock	\$89.95

Large Pool Clock

36" diameter with 3" numbers. Wall mount or on a stand, plug-in 110 volt only.

Item No	Description	Price
16 26 02	O Sanio Pool Clock - Wall Mount	\$454.50

SCALES

Balance Beam Scale

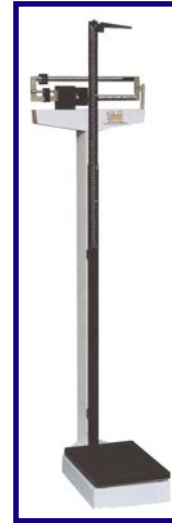

A good scale for weight rooms and workout areas. It has a large stable cast aluminium base and the 11" by 14" platform is covered with a non-skid rubber matting. It reads 0-160 KG or 0-350 lbs. The height bar reads to 200 CM or 78".

Item No	Description	Price
16 25 51	Balance Beam Scale	\$495.00

Digital Scale

This is a heavy duty scale with a large digital display that does well in tough environments. The base is 13.5" by 13.5" and made of stainless steel to last. The bright 6 digit LED display is mounted on a 40" post and measures 0-500 lbs or 0-250 KG, is powered by batteries and is accurate to 0.1lbs. Levelling feet and auto-off are included and at 20 lbs it is easy to move.

Item No	Description	Price
12 25 60	Digital Scale	\$681.50

SAUNA EQUIPMENT

Sauna Heaters

Homecraft rugged floor mount heaters are made of stainless steel and are CSA certified. These heaters are designed with a free flow circulation system for quick preheating and fast recovery. Igneous sauna rocks and instructions are included with each heater. Dimensions for the floor mount FSH series commercial heater are 20" by 20" by 32" in height.

Sauna Heaters (controls not included)

Item No.	KW	Volts	Phase	Amps	Description	Sauna Size	Price
16 27 03	9KW	208	3	25	Wall Mount #HSH 9	360 to 450 (cu. ft.)	\$525.00
16 27 01	12KW	208	3	33	Floor Mount #FHS 12	450 to 700 (cu. ft.)	\$1095.00
16 27 02	15KW	208	3	42	Floor Mount #FHS 15	600 to 900 (cu. ft.)	\$1325.00

REPLACEMENT HEATER ELEMENTS:

16 28 04	3 KW Homecraft replacement element	(208, 3 phase)	\$89.25
16 28 05	4 KW Homecraft replacement element	(208, 3 phase)	\$139.50
16 28 06	5 KW Homecraft replacement element	(208, 3 phase)	\$139.50

NOTE: Bent or flat elements are actually the same. For shipping purposes "Bent" elements may be shipped as "Flat" elements. Simply place a flat element on a table edge and bend to angle required.

Commercial Floor Mount Heater FHS 15

HSH9 wall mount for smaller saunas

"THE ULTIMATE" by Saunacore

The Ultimate is a well-built sauna heater that provides an option for larger commercial saunas requiring more heat.

Fabricated 100% from 304-grade stainless steel, the Ultimate is built to last at an aquatic center. The elements are industrial quality; low-density silver soldered. The Ultimate is floor mounted and measures 21" W X 21" D X 34" H. 30# of sauna rocks are included.

These are high output heaters and a successful installation requires two extra considerations. Both fresh air supply to the heater and internal re-circulation of air within sauna are required for best results with an Ultimate heater. We can help with information on both requirements.

The Ultimate has a very unique vaporizer option to enhance the environment of a sauna. This option requires a water source (1/4 inch copper feed line) to feed an internal tank that emits steam/humidity into the sauna. Vaporizer is recommended for public pool applications if water supply can be made available. Standard voltage is 208, 3 phase but is available at higher voltages to 600 volts (at extra charge).

Heaters come complete with a mechanical wall mount control consisting of thermostat with 12 foot capillary, 60 minute timer, pilot light, contactor and enclosure.

Item No	KW	Model #	Description	Sauna Size (Max)	Price
16 27 54	18	ULTC6	Floor Mount	750 cu. ft.	\$2791.25
16 27 55	21	ULTC6	Floor Mount	825 cu. ft.	\$3226.25
