

TOT DOCKS

Deluxe Tot Dock

This Tot Dock was designed to be the most easily removed one on the market. It weighs just 53 pounds and with folding legs can be easily removed by one person. The platform is 38" wide and 60" long and the height is adjustable to 12", 14", or 16". It has a non-skid surface and optional 28" high hand rails are available. There are plastic bumpers on the edges to protect the pool edge, and with the folding legs can be easily stored flush against a wall taking up very little space. The tot dock is made of marine grade aluminum coated with a high visibility non-skid finish and the railings are aluminum reinforced PVC. Each Tot Dock comes with one long and one short rail.

Tot docks come with fasteners so that two or more can be fastened together to make larger platforms of any configuration.

Item No	Description	Price
17 30 02	Deluxe Tot Dock c/w 1 long & 1 short rail	\$1525.00

17 30 17	SS leg clips (each)	\$28.50

Teaching Platform by Spectrum

This Teaching Platform has a stainless steel frame, legs, handrails on two sides, and a Duradeck fibreglass platform. The handrails have a centre rail as do the legs, for added safety. The platform is 60" long by 38" wide, and can be from 18 1/4" to 25 1/4" high. Leg bottoms are protected by rubber bumpers, and multiple teaching platforms can be fastened together to provide larger platforms. Excellent quality and durability, this is the unit recommended for salt chlorinated pools. Units weigh 153 pounds each.

Item No	Description	Price
17 30 40	Teaching Platform 82300	\$2425.00
