

## HAYWARD PUMPS & PARTS

### Hayward HCP 2000 (Tristar) Pumps

These are very efficient pumps with all-plastic construction. The strainer lid is clear, and comes off by hand. Suction and discharge are 2", and unions are included. The included unions fit 2" pipe inside and 2 1/2" pipe outside. Self-priming to 10' above water level. From 1/2 HP to 1 1/2 HP the standard motors are 115/208-230 volt and single phase and 2 thru 5 HP have 208-230 volt single phase motors. All models are available in 208/230/4603 phase and 575 volts and 3 phase, on special order.

Item No.	Description		Price

## Hayward HCP 4000 Series Commercial Self Priming Pumps

These Hayward pumps are available in 5.5, 7.5, 10 and 12.5HP, and all are available in 230/460v 3ph or 575v 3ph. **Note the 575v 3ph are special order.** These pumps are all-plastic, with 4" suction and 4" discharge ports. The strainer lid is clear and removes by hand. These pumps are designed for medium head/high flow situations. Do not use where high head is required. A quiet and very efficient pump if properly sized. Replacing an old VM Series pump, and looking to get all plastic; this would be a good replacement.

Item No.	Description	Price
HCP55	5.5hp 230/460v 3ph	\$5218.25
HCP75	7.5hp 230/460v 3ph	\$6000.69
HCP100	10hp 230/460v 3ph	\$6342.43
