

Wide Bodied Strainers

These Wide Bodied Hair and Lint strainers are made from Fiberglass reinforced PVC. They feature one piece 316 Stainless Steel baskets, .25 perforated, which are round with an angled top and handle. Lids are clear acrylic and see-through, with stainless steel and PVC hand knobs. Lid bolts swivel where required for easy removal. The Flanges are Vanstone, free to rotate to make alignment problem free. Configurations can be straight through, offset, or reducing as required. Flange to flange dimensions can be stock; or custom where this is a replacement strainer, to avoid changing plumbing. Due to the wide body these have a very low pressure drop and are typically lower in height than other strainers and suitable for restricted height spaces. For sizes not listed please enquire. Custom made to order. **FOB North Vancouver.**

Item No	Description	Price
11 34 50	4" Flanged Strainer	\$2,198.20
11 34 51	6" Flanged Strainer	\$2,682.40
11 34 52	8" Flanged Strainer	\$3,248.10
11 34 53	10" Flanged Strainer	\$3,992.30
11 34 54	12" Flanged Strainer	\$4,611.10

Nemato Replacement Rectangular Profile O-rings

Item No	Description	Price
575-53023	#6, H & L Strainer Lid O-ring	\$59.95
575-53024	#10, H & L Strainer Lid o-ring	\$66.50
575-53025	#16, H & L Strainer Lid o-ring	\$74.50
575-025MG	Horizontal Filter Manhole Gasket	\$64.50

Nemato Strainer Lid Knobs, J-Bolts, and Fender Washers

11 34 64	Knob-Thru Hole w/brass insert, 3/8-16	\$13.95

11 34 66	Fender Washer stainless steel	\$2.50
11 34 67	U-Channel for SS Mesh Edges	\$8.75/foot

Unions-Prather Thread by Slip Unions with O-ring seals

Some products like pumps and dial valves come with plumbing ports that have female pipe threads. Normally pipe threads are tapered, and the threads get larger the more you screw them in to help them seal and be water tight. This can cause pump volutes, strainer, or dial valve bodies with threaded ports to crack or split. These unions are designed to prevent this, the threads are straight, and there is an o-ring to seal. When installing new pumps or dial valves these can be useful accessories to facilitate servicing and prevent damage to equipment. The Hi Temp models are for heaters.

Item No	Description	Price
150-903	1 1/2" slip/mipt, c/w O-ring	\$7.95
150-906	1 1/2" slip/mipt, c/w O-ring, hi temp	\$16.38
200-903	2" slip/mipt, c/w O-ring	\$16.38
200-906	2" slip/mipt, c/w O-ring, hi temp	\$23.38
