OTTER 10 LANE

Otter Scoreboards

These are Indoor/Outdoor Red 5" LED scoreboard packages, made up for 6, 8, or 10 lanes with 3 digit event and heat displays. These are one piece, economical scoreboard solutions. They come with a 14' 115 VAC power cord, water-proof digits and electronics, a polycarbonate front cover, and powder coated aluminum chassis. The scoreboards come with RS-232 data jacks for wired communications with the System 6. Also included is a WA-2 wireless System 6 receiver and the Dolphin wireless receiver. Please note, you will need to buy the wireless transmitter for your timing system separately. They are cET-Lus approved, (CSA equivalent). Customization is not available, and a **\$125.00** crating fee will be added to shipping. Three mounting tabs are included on each scoreboard frame. Other mounting hardware is not included unless requested/discussed. The 6 lane scoreboard (MS-0149) is 4'-8"H X 4'W X 4.25"D and 60 pounds. The 8 lane scoreboard (MS-0150) is 5'-10"H X 4'W X 4.25"D and 70 pounds. The 10 lane scoreboard (MS-0151) is 7'H X 4'W X 4.25"D and 80 pounds. Scoreboards for Diving and Waterpolo are also available, please enquire.

locking mechanism

nonslip wedge

Backstroke Start Wedge by Colorado Time Systems

The Backstroke Wedge is a non-slip wedge 65 X 8 CM, angled at 10 degrees, to provide a solid base for Backstroke starts. Normal installation is to strap the Wedge around the vertical post of the Starting Block. The Wedge is unlocked and pulled down into the water by the swimmer to start, and automatically retracts up and out of the way after the start.

FOB Factory.
