COMMERCIAL AQUATIC SUPPLIES

A DIVISION OF DB PERKS & ASSOCIATES LTD.

2026-2027 CATALOGUE

www.commercialaquaticsupplies.com

OUR COMPANY

DB Perks & Associates Ltd., operating as Commercial Aquatic Supplies, is 100% Canadian owned and operated. We have been supplying and servicing public aquatic centres throughout Canada since 1974.

We offer a wide range of products and services. From water testing kits, chemistry controllers, cleaning & maintenance supplies, and pumps to racing lanes, lifeguard chairs, program supplies and large foam toys. Mechanical room to deck level; we know pools!

Our service team has complete knowledge of chemistry pool controllers, chemical feed pumps, filters and mechanical systems, and are ready to assist you.

We take pride in supporting various provincial organizations and attending tradeshows throughout Canada.

Thank you for your continued support.

Doug Perks

President/owner

COMMERCIAL FILTERS

Regenerative Media Filters *by Neptune Benson*

Regenerative Media Filters deliver superior water quality along with significant operational savings.

Compared to other technologies, Defender regenerative media filters maximize performance, efficiency and user friendliness while helping reduce the environmental footprint. They can remove particles as small as one micron providing the cleanest and safest water possible. To compare, traditional sand filters typically remove particles down to 20 microns.

Regenerative media filters use perlite, which is nonhazardous and can be flushed away with backwash when required. This reduces the labor costs and effort involved with replacing filter media.

Defender is the bigger option filter for larger pool water volume.
This precoat filter is known for its excellent filtrate quality and low back wash water requirement. This filter yields a very large filter area because of the use of capillary shaped filter surfaces. Perlite which is harmless, is used as the filter media for regenerative filters and a vacuum conveyor is used for the dust free application directly from packaging into the vessel. When the perlite becomes loaded, the Defenders regenerate by mechanically "bumping", a process in which no water is lost. Since nobody really likes backwashing, the Defender will reduce backwashing frequency compared to a traditional system and automates the Bumping process for a Fresh Start!

Defender Filter

For both models the benefits are outstanding.

- Space Savings, smaller footprint in your filter room
- Superior water quality
- Labor savings in replacing media
- Addresses backwash flow rate restrictions
- Ease of Perlite filter media replacement – significant labor savings
- 90% water savings
- 75% space savings
- 50% energy savings
- 30% chemical savings

Defender Virtuo

The latest addition to our Defender portfolio—designed to deliver exceptional performance in low-height aquatics mechanical rooms. Fitting 8' ceiling applications up to 1,800 gpm / 408 m3/h.

- More filtration options – Six new models (436–1,235 SF) provide greater flexibility to match your specific application.
- Lower construction costs – Easily fits in pump rooms with 8' ceilings, eliminating the need for costly ceiling modifications.
- Simplified retrofits – Ideal for renovations, making installation and handling easier in low-clearance spaces.
- Proven design – Virtuo leverages the same rugged lined-steel and mechanical bump performance that has been proven for decades at thousands of sites across the world.

And, like all Defender filters, Virtuo delivers industry-leading efficiency and sustainability benefits over sand filtration.

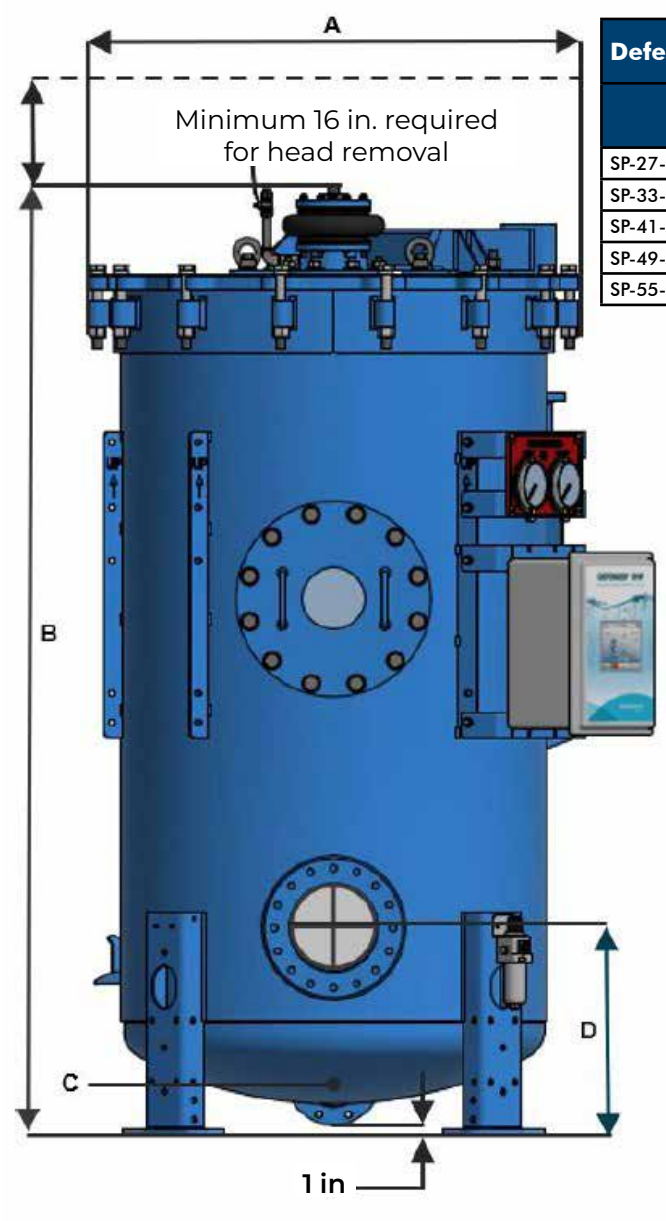

Defender Virtuo

Contact our office for a complete package of information, specifications and a quote

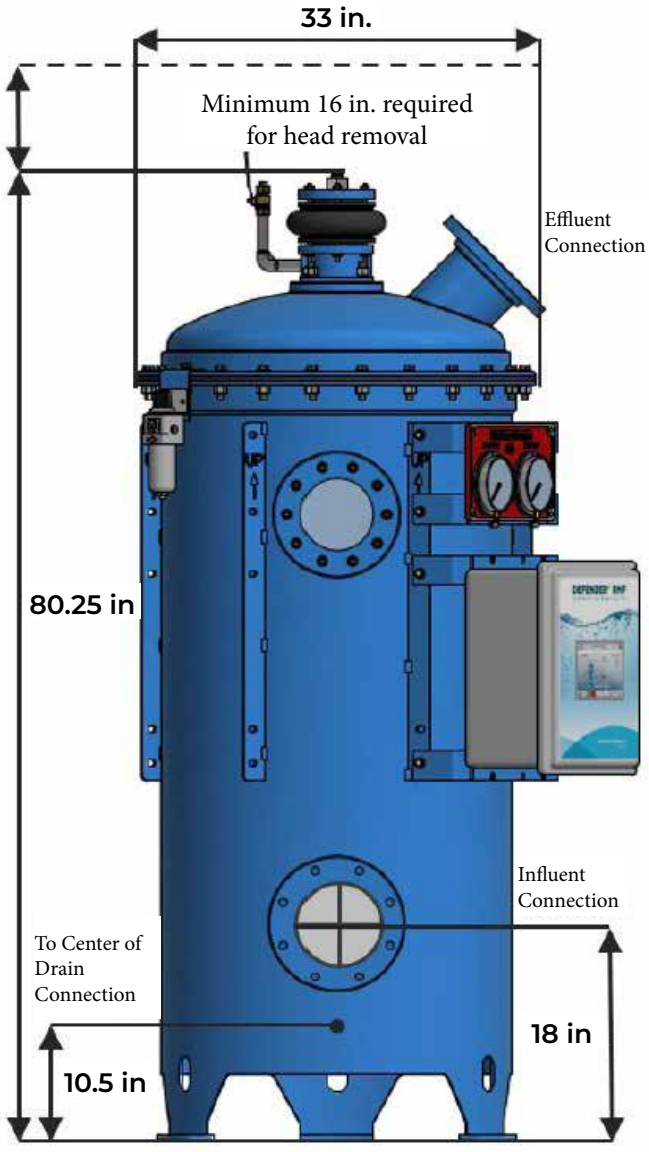

Reduced height Defenders and Assero RMF filters are smaller and often ideal for retrofit projects where a low ceiling height is already established. It's important to allow some additional space between the top of these filters and the ceiling for maintenance.

Assero RMF filters have an installed height of 204cm (80.25inches)
Min/Max flow rates based on recommended filtration rate of 1.22-3.42M³/hr/m³ (0.5-1.4gpm/ft²)
All Assero models have inlet & outlet connection sizes based on 10.0fps (feet per second) max pipe velocity
Uses perlite media

High Rate Commercial Sand Filter Systems *by Neptune Benson*

Neptune Benson sand filters can be sold as single filter unit(s) or as a complete package including face piping, connections, site glass, valves & pressure gauges.

Horizontal Model SHFFG fiberglass high rate commercial sand filters

Engineered to the highest standards for strength, to maximize long term performance and operational integrity.
Designed with superior materials including schedule 80pvc internal parts and solid fibreglass flange connections. Can be plumbed singly or stacked for space savings

Features

- 14"x18" manway access
- 15Yr Warranty on tank
- Many sizes and configurations to suit every application
- Available in manual or fully automated face piping arrangements
- Automatic backwash programming available

Vertical Legacy High Rate Commercial Sand Filters

Compact fiberglass molded with gel-coat finish commercial filter. Can be plumbed singly or linked together (side by side) as required

Features

- 5 year warranty on tank
- Schedule 80pvc laterals
- Schedule 80 External face piping & fittings
- Many sizes and configurations to suit every application
- 6 point position lever operated multiport valve provided for filter control
- Fully automated backwash system with controller available

Contact our office for a complete package of information, specifications and a quote

HCF Commercial Filter *by Hayward*

These Laminated & Bobbin wound sand filters provide efficient high-performance filtration. They are designed to increase filter efficiency & enhanced backwash process. The larger sizes in this series remove the need to use multiple smaller filters to save valuable space in your pump room, along with plumbing complexity. Sizes 42"-63" filters are constructed with heavy-duty filament-wound fiberglass. Sizes 30-36 are constructed with resins and fiberglass and are laminated.

Model	Filter Size	Filtration Area (ft^2)	Filtration Area (m^2)	Flow Rate (15 GPM/ft^2)	Connection Size	Price

2" Valve 3" Valve

Triton II Sand Filters *by Pentair*

This commercial fiberglass filter provides years of dependable, low maintenance operation.

- Easy access, heavy duty top enclosure with built in pressure relief valve
- Combination sand and water drain for servicing and winterizing
- All internal parts are threaded for ease of maintenance
- Bulkhead connectors are threaded for easy installation and service
- Uses standard # 20 Silica Sand Or AFM Activated Filter Media (not included)
- One-piece fiberglass construction
- Parts are readily available
- Max operating pressure 50psi

Please note these parts will take approx. 6-8 weeks to ship.

FILTER MEDIA

AFM-ng®- Activated Filter Media

Discover the unique 100% bio-resistant and worlds best performing filtration media.

AFM Activated Filter Media is a direct permanent replacement for sand, doubling the performance of sand filters without significant investments in infrastructure. AFM resists biofouling and biocoagulation which causes channeling of unfiltered water. AFM is a highly engineered product manufactured from a specific glass type, processed to obtain a particular particle size and shape.

Additionally the particles are treated with a 3-step activation process to become self-sterilizing. When used with APF Flocculant, you can further improve filtration.

AFM comes in three grades 1, 2 & 3 and are layered in your filter for optimal performance.

Unique AFM-ng® Benefits

- Filters 95% of all particles down to 1 micron vs 20 for sand
- Self-sterilizing surface that resists bacterial growth & biocoagulation
- Provides exceptionally safe & clear water
- Prevents the formation of harmful disinfection by-products (THMs, NC13) resulting in lower DBP's & better air quality
- Significantly lowers chlorine oxidation demand, and reduces chemical consumption
- Outlasts all other filter media
- Uses 15% less media by weight / Only need 85% of AFM vs. sand
- Attracts and removes heavy metals, organic maters and microplastics
- Offers water and energy savings thanks to shorter and slower backwashes compared to sand
- NSF50 and 61 Certified

Things to note:

- You need less AFM compared to sand for your filter
- AFM requires 15-18 gpm/sq.ft. filter area to back wash correctly, ensure your pump can provide sufficient flow.

Pricing:

- Contact us for a price quote.

Contact us with your filter model or current sand volume required and we will calculate the amount of each grade you need.

APF® All Poly Flocculant

APF is a combined product which contains a multi spectrum coagulant and flocculant.
It contains 5 active components to achieve the wide spectrum

Price on request (Item no. 20011)

Key APF® Benefits

- Improves filtration performance **in all Sand Filters!**
- Removes particles and bacteria from the water
- Removes phosphates that are necessary for the growth of algae and bacteria, resulting in reduced chlorine consumption.
- Works together with AFM – for improved water quality
- Injected in front of pump, to allow time to work

APF® All Poly Flocculant

Stenner APF® Low Dose feed pump

For feeding APF®

This pump is specifically for dosing the APF® All Poly Flocculant into your pool for use with AFM-ng filter media. This peristaltic pump suits the continuous low dose requirements of the APF® product.

Item No	Description	Price
STFP-E10LHF	Stenner Peristaltic Low Dose Pump, 0.11-8.1 OPH, 80PSI	$803.60
STFP-E10LHM	Stenner Peristaltic Low Dose Pump, 0.04-2.4 OPH, 80PSI	$803.60
STFP-EC30M-2	Stenner Low Dose M pump tube, c/w 1/4" ferrules -2pack	$72.85
STFP-EC30M-5	Stenner Low Dose M pump tube, c/w 1/4" ferrules -5pack	$181.70

Stenner APF® Low Dose feed pump

Static Mixers

Use to allow proper mixing of chemicals or flocculants.

Key Benefits

- Amplifies coagulation and flocculation reactions to improve your filter's performance
- A small investment for big performance – does not need power, operating, or maintenance costs
- These are static mixers for the injection of products such as APF (flocculant)

Price on request

Generic 30 x 60 Element

DE Filter Tips

- Good precoats are essential to getting flow, clarity and keeping elements clean.
- Normal doseage is 2 ounces of DE per square foot of filter area, or follow manufacturers precoat dosage instruction.
- Object is to deposit at least 1/16" over all parts of filter elements.
- Precoat flow rate should be no more than 1 US gallon per square foot of filter area.
- Maximum filter flow rate should be no more than 2 USGPM per square foot, and preferably in the range of 1 to 1.5 US PGM per square foot.
- Check filter elements for spots not covered by precoat. This normally indicates body oils of grease or mineral staining on the elements which should be cleaned off or it will affect flow and length of filter cycles.
- Check regularly for warped or broken filter elements and repair as required to maintain filter performance and prevent filter media from leaking into pool.

PUMPS AND PARTS

Important update regarding energy efficiency regulations going forward affecting Pool Pump supply.

The U.S. Department of Energy (DOE) has issued new energy efficiency regulations that are changing design and manufacturing of pool pumps. The DOE affects Canada and Canadian customers because these products come primarily out of the U.S. Single speed pumps are being phased out. The few single speed pumps that are still available early 2026 will likely become scarce to no availability by the end of the year.

Moving into energy-efficient pumps will lower energy bills going forward.

Older fixed speed pumps run at full power at all time, which wastes electricity. The new energy-efficiency standards guide us into pool pumps that deliver the right flow rate with minimal energy use.

VSP/VSD pumps allow adjustment for turnover and nighttime turn down as well.

What is WEF?

The Weighted Energy Factor (WEF) is a US Department of Energy standard for measuring pool pump efficiency. It is like miles per gallon for cars.

- A higher WEF indicates a more energy-efficient pump that moves more water per unit of energy.
- Variable speed pumps generally have a higher WEF rating that a single speed pump.
- Benefits are energy savings, lower energy costs, enhanced performance, better control for water features and often quieter operation.
- Initial purchase costs maybe higher, but the energy savings often lead to a fast recoup of this expense.

Making the change.

- Have details of current pump handy. Model number, performance, physical size data.
- Cross check the performance in a DOE compliant model (most often a VSP, or a 3phase).
- For replacing complete pump- cross check the fit, frame size, space, inlet & outlet heights.
- Some motor only replacements are an option.
- Re-wire for voltage, will be common as VSP/VSD most often have 230V 1ø power.
- If replacing motor only, be sure to replace the mechanical/shaft seal and gaskets.
- Program the pump to suit your application.

WhisperFlo VST Variable Speed Pool Pump *by Pentair*

This WhisperFlo VST Variable Speed Pool Pump is a drop-in replacement for the existing Pentair WhisperFlo pumps. Totally enclosed fan-cooled (TEFC) motor for long term durabilit. User friendly programming lets you pick the best speed. WEF 8.4 THP 2.60

Model No	Description	Price
011533	WhisperFlo VST Variable Speed HiHead	$2347.15

WhisperFlo VST Pump

WhisperFlo XF VS 5HP Variable Speed Pump *by Pentair*

This pump is the first five horsepower variable-speed pool pump that runs on single-phase or three-phase power.

- Integrated 5HP variable speed with combined motor/drive solution
- Versatile power input capability, single or three-phase power
- Speed or flow control for maximum efficiency and performance
- Optional external control capability through automation systems or relays
- Intuitive programming and operation
- WEF 5.0 THP 5.0

Model No	Description	Price
022035	WhisperFlo XF VS 5HP Variable Speed Pump	$4584.40

WhisperFlo XF VS Pump

WhisperFlo XF High Performance Pump *by Pentair*

XF Series pump with TEFC motors

- Advanced high capacity pump with excellent performance
- Union Connectors 2.5" or 3" Union connectors included
- Overside strainer basket
- Cam & Ramp lid

SuperFlo Pump *by Pentair*

The SuperFlo pumps have a heavy duty high service factor 56 square flange motor and highly engineered hydraulics.

Features:

- The integral volute and post reduce noise, making this pump extremely quiet
- Unionized fittings are included: 1.5" internal slip and 2" external slip
- Small footprint

Item No	Voltage	HP	Price

PENTAIR SUPERFLO PUMP

SuperFlo Variable Speed Pump *by Pentair*

Features:

- Direct drop in for Hayward Super Pump and existing Pentair SuperFlo pumps.
- Simple to operate
- 1.5" Slip (2" external slip) and quick connect plumbing union
- THP (total horse power) 2.2
- WEF (weighted energy factor) 9.0
- HHP (hydraulic horse power) 1.08

Item No	Description	Price
342002	SuperFlo VST Pool Pump	$2104.10

PENTAIR SUPERFLO VARIABLE SPEED PUMP

IntelliFlo XF VSF Pump *by Pentair*

This variable speed and flow pump that adjusts to changes in flow system conditions to maintain is programmed flow rate.

Perfectly suitable for large pools and features with higher flow demand.

- Eight programmable speed or flow settings and built in timer
- Top mounted field wiring compartment is easier to access and connect
- Totally enclosed fan cooled (TEFC) design keeps motor shielded from elements
- Union connectors included for connecting directly to 2.5" or 3" plumbing
- Consistently maintains system flow requirements
- THP 3.95, WEF 5.6 HHP 2.1
- Infinite speeds and can be set to maintain flow rate

Model No	Description	Price
022056	XF-VSF Series 0-3HP, 230v & 1ph	$3011.55

INTELLIFLO XF VSF PUMP

IntelliFlo3 Variable Speed & Flow Pump, with Relay *by Pentair*

These DOE compliant IntelliFlo3 pump is available 1.5HP and 3.0HP.
These pumps connect to apps to allow pool owners to monito and control remotely.

- Flow technology maintains the pools optimal flow, adjusting to condition which aids in energy savings.
- These umps have Wi-Fi enabled automation which unlocks the ability to connect remotely.
- Optional touch screen adds a modern touch (special order, please inquire)
- Quiter performance compared to single speed pumps
- THP 3.95, WEF 5.6 HHP 2.1

Model No	Description	Price
011066	IntelliFlo3 1.5HP with Relay	$1876.45
011076	IntelliFlo3 3.0HP with Relay	$2628.90

INTELLIFLO3VARIABLE SPEED & FLOW PUMP

Commercial Polymer Pump *by Jandy*

Features:

- This Commercial Polymer TEFC Pump is specifically designed for commercial applications. Suction port is 6" Discharge port is 4" (ANSI-150 Bolt flange)
- These are an easy drop-in replacement for the Pentair EQ Series and C Series commercial pumps.
- Self priming
- Compatible with most VFD's
- Replacement motors that meet or exceed the same electrical specifications of the OEM motor can be used.

Item No	Description	Price
JCP051CTS	Jandy JCP 5HP 208-230V TEFC 1/Ph w/Strainer	$9280.65

Single Speed Pumps *by Hayward*

This single speed pump is compliant with the updated energy requirements.

- Efficient and dependable, featuring a heavy-duty motor with quieter & cooler operation.
- The swing away knobs make cleaning the strainer basket easier and faster. No tools needed.
- See-through strainer cover
- Designed with servicing in mind, with simple access to all internal parts.
- 110-cubic-inch basket has extra leaf-holding capacity; load-extender ribbing ensures free flowing operation
- Mounting base provides stable support; adapts 48 and 56 frame motors.

Item No.	Voltage	Price
SP2605X7A	Hayward 3/4HP Single Speed Pump	$873.10
SP2607X10A	Hayward 1HP Single Speed Pump	$872.70

HAYWARD SINGLE SPEED PUMPS

Tristar Single Speed Pumps *by Hayward*

This single speed-pump is compliant with the updated energy requirements.

- Higher flow rates can allow for stepping down in pump horsepower compared to less efficient pump models
- 2" x 2 1/2" union connections make installation and servicing fast and easy
- No-rib basket design ensures easy debris removal. Extra leaf-holding capacity extends time between cleanings.
- Pressure testable to 50 psi maximum
- Self-priming up to 10' above water level
- Same flow curve as a 1/2HP Tristar (62gpm@40'TDH) - (SP3200X10)

Item No.	Voltage	Price
SP3200X10	Hayward Tristar 1.1HP Pump	$1182.40
SP3250EE	Hayward Tristar 5HP Pump	$3510.25

TRISTAR SINGLE SPEED PUMPS

See website for pump performance charts

Tristar Pumps *by Hayward*

These are very efficient pumps with all-plastic construction. The strainer lid is clear, and comes off by hand. Suction and discharge are 2", and unions are included. The included unions fit 2"pipe inside and 2 ½" pipe outside. Self-priming to 10' above water level. 575 volts, 3 phase are special order.

Item No.	Voltage	HP	Price

VM Bronze Pumps

This self-priming filter pump has several features which contribute to high performance and a long life. All Bronze construction for strength and durability. Double Volute casing allows rapid air-separation and water circulation during the priming cycle, reduced the radial thrust on the impeller. Integral hair and lint strainer, with robust construction designed for commercial use.
Equipped with close coupled NEMA electric motors available in 5, 7.5 and 10 Horse Power. Closed impeller is mounted on the motor shaft and requires no adjustment to maintain performance. Ability to provide flows upto 435USGPM and heads upto 109 feet. All models are provided with flanged 4" suction and 3" discharge connections ready for installation. Recommended for use with fibreglass filters because of the low shut-off head of 45psi. Parts are readily available.

Changes to options for the motors on these pumps, requires careful cross checking of power in your facility.

ENLARGED VIEW OF SHAFT SLEEVE AND MECHANICAL SEAL AREA.

EQ Series Commercial Plastic Pump

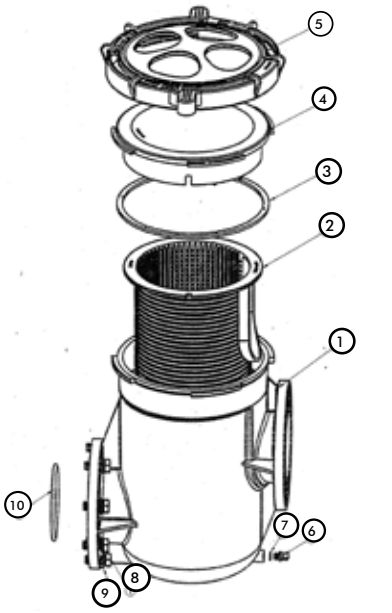

- All-plastic pump and strainer for durability and long life.
- 6" suction on strainer and, and 4" discharge on pump.
- Direct replacement for C Series Bronze Pump.
- Can be purchased/used with or without strainer.
- Self priming with Hair and Lint Strainer.
- See-through strainer lid with cam and ramp closure.
- Very efficient and quiet operation.
- 208/230-460 3 phase is standard, other voltages (575) on request.
- Low shut-off head of 50 PSI, important for fiberglass filters rated at 50 PSI.

VARIABLE FREQUENCY DRIVES (VFD)

VFD solutions for your facility. Their purpose is to maximize the energy efficiency of your motors by only feeding the energy required to meet your designed flow rates. As an example a 20% reduction in pump speed will yield you an approximate 50% reduction in energy usage. Any facility that uses valves to throttle too large of a pump or one that runs at a higher flow rate than mandated by the health authorities can benefit from this technology. VFD's can be tied directly to flow meters that have digital output so that they can adjust flow on the fly during the filter cycle. They also can have optional communication modules to connect to Building Management Systems (BMS) through common protocols. Many models also incorporate ramping on start up (or soft start) which reduces air hammer and pressure issues downstream. This can prolong the life of other equipment like filters in your facility. For quotes on options not listed below please call with your requirements.

ABB Drives & E-Clipse Bypass

Optimize your system using drive control. ABB offers reliability, quality, and energy savings. They are easy to use and safe to maintain. If you need to work around your VFD, the bypass component allows this function.

H2Flow Controls

Eco-flow Aquatic Variable Frequency Drives. Combines functionality, quality and reliability. Fully configured for the pool and spa industry. Eco-Flow offers an array of unique features to ensure complete optimization of pool pumps while also maintaining ease of operation and user friendliness.

STRAINERS

Custom Strainers

Our custom strainers are made from fiberglass & PVC. They are suitable for both new installations and replacement of old. These can save time and money for replacement applications since they are built to suit existing plumbing. They are supplied with Vanstone flanges for inlet and outlet connections and a removeable basket for cleaning.

All strainers come with accompanying basket, drain, air bleed valve, stainless steel and PVC hand knobs, and a see through clear acrylic lid. Fabricating a strainer to fit existing piping requires three measurements plus pipe size.

Wide bodied custom strainers have a low pressure drop and are typically lower in height than other strainers making them suitable for restricted height spaces. The wide bodied strainers come with a full round basket.

Custom made to order, allow 3-4 weeks delivery.

Custom Strainer

Custom Wide Bodied Strainers

Item No	Pipe Size	Price
11 34 02	Strainer with 3" Vanstone flange	$2467.25
11 34 03	Strainer with 4" Vanstone flange	$2615.55

Completed measure guide required to process orders for bstrainers and/or replacement baskets

Replacement Custom Strainer Baskets

Replacement or back up strainer baskets can be ordered separately. Dimensions of your strainer are required to fabricate. Depending on your existing set up full or half baskets can be supplied.

A Strainer Basket Measure Guide will be required for a quote and get your order in process.

Automatic Pump Shutoff Device

The Emotron PSP20 works by using the motor as the sensor, detecting the change in motor load caused by suction blockage and shutting down the pump motor in 1 second. Installation is simple, electrical only. There is also no need to disable the device during backwashing or pool vacuuming. The Emotron Panel installs between the pump power supply and the pump. Three pieces of information are required to price and order these items. The motor supply voltage & number of phases and the motor full load amps.

Priced on Request.

Automatic Pump Shutoff Device

Praher Thread By Slip Union

These specialty union fittings are designed to provide a secure connection, along with being useful if you need to disassemble your pump for maintenance or cleaning. They come with a fitted o-ring to provide a secure seal.

Item No	Description	Price
150903	1 ½" slip/mipt, c/w O-ring	$6.15
150906	1 ½" slip/mipt, c/w O-ring, hi temp	$9.55
200903	2" slip/mipt, c/w O-ring	$7.95
200906	2" slip/mipt, c/w O-ring, hi temp	$11.20

Thread by Slip Unions with O-ring seals

VALVES & FLOW METERS

Chemline BYV Butterfly Valves

Lever Operated

Chemline Type 60 elastomer seated butterfly valves are an excellent value, general purpose wafer style BFV designed for a wide range of ON/OFF and throttling applications.
Size 2"-8" are lever style; 10" and 12" are gear operated.

Gear operated options available in 2-12", please inquire

Item No	Size	Price
60A020AEL	2" Lever	$378.70
60A025AEL	2-1/2" Lever	$444.85
60A030AEL	3" Lever	$505.60
60A040AEL	4" Lever	$542.05
60A060AEL	6" Lever	$794.50
60A080AEL	8" Lever	$1325.00

Praher Double Union Ball Valves

Supplied with slip x slip adaptors. PVC 150 PSI.

Item No	Size	Price
12 08 02	3/4"	$21.75
12 08 03	1"	$22.30
12 08 04	1 1/2"	$39.15
12 08 05	2"	$49.85
12 08 06	2 1/2"	$225.20
12 08 07	3"	$349.90
12 08 08	4"	$644.95

Hayward Wafer Check Valves

Designed to fit between two standard flanges and are suitable for vertical or horizontal mounting. Normal sizes are 2" to 12" They are PVC bodied with EPDM seals and 316 stainless steel springs. All wafer check valves should be installed a minimum of 5 X pipe diameter downstream of pumps, valves or elbow. Spacers are not required with these to allow full disc opening. Pressure to open with spring for all sizes is 0.5 PSI.

Item No	Description	Price
WCV1200ES	2" check valve	$710.95
WCV1250ES	2 ½" check valve	$827.25
WCV1300ES	3" check valve	$956.10
WCV1400ES	4" check valve	$1093.65
WCV1600ES	6" check valve	$1562.05
WCV1800ES	8" check valve	$3084.45
Larger sizes quote on request.		

Make-up water float Valve (CLA-VAL)

- Non modulating valve that accurately controls liquid levels in tanks.
- Hydraulically operated with float controls mounted on the cover of the valve
- Available in sizes ½" – 6" (15-150mm)
- Adjustment range is 1-18"
- Float Control Assy sold separately

Item No	Description	Price
12 04 03	¾" Bronze Body	$POR
12 04 04	1"	$POR
12 04 05	1 ½"	$POR
12 04 06	2"	$POR

Float control (for open tank)

- Comes with 24" rod in 2 x 12' pieces
- Used to operate CLA-VAL valves
- Accurate liquid level control
- Fully hydraulic operation
- 24" of PVC Floatrod
- Operates on a minimum level change of approx. 1 inch
- Maximum level change is 18"
- Level adjustment can be located up to 11 ½ feet from the control by adding float rod extensions.

Item No	Description	Price
12 04 02	CFI-C1 Float control	$POR
12 04 00	12" piece of extension rod	$POR
	12" piece of extension rod (if ordered with controls at the same time)	$POR

38097C	Stop Collar, 2 required	$POR
6798837J	Set Screw for Collar, 2 required	$POR
C0648A	Float Ball	$POR

FlowVis Flow Meters + Digital

FlowVis Inline flow meters are for clean & filtered water applications. Some sizes combine the functions of flow meter and check valve. These will provide reasonable flow readings in very short piping runs, but will also generate some head loss. Installation consists of gluing directly in line. Rated to 50 PSI.
Check Valve not included on items numbers FV-3 and FV-4.
A digital upgrade for standard FlowVis Models. Features digital readouts of flow, turn over rates, min & max flow alarms and more. Digital display comes as a NEMA 4X pre-mounted enclosure

Item No	Pipe Size	GPM	Price
FV-2	2" & sch 40	10-110	$332.30
FV-25	2.5" & sch 40	10-110	$357.40

3-2536-P2	10" + pipe size	$POR

2551 BLIND FLOW SENSOR

Magmeter 2551 Blind

An insertion style flow sensor with no moving parts, and works by sensing the induced voltage across the sensor tip generated by the water flow. Works well in dirty water applications where dirt or hair would prevent a paddle wheel from spinning. Two options S3L or 4-20mA

Item No	Description	Price
3-2551-P0-11	½" – 4" pipe size. Frequency out blind display	$POR
3-2551-P1-11	5" – 8" pipe size. Frequency out blind display	$POR
3-2551-P2-11	10" + pipe size. Frequency out blind display	$POR

4 - Sensor Mount, Saddles

Schedule 80 and for 2"-8" are clamp on with an o-ring seal and for 10" & 12" are glue on.

Item No	Description	Price
PV8S020	Flowsensor Saddle for 2" pipe	$POR
PV8S030	Flowsensor Saddle for 3" pipe	$POR
PV8S040	Flowsensor Saddle for 4" pipe	$POR
PV8S060	Flowsensor Saddle for 6" pipe	$POR
PV8S080	Flowsensor Saddle for 8" pipe	$POR
PV8S100	Flowsensor Saddle for 10" pipe	$POR
PV8S120	Flowsensor Saddle for 12" pipe	$POR

CLAMP ON SADDLE

5 - Power Supply

Item No	Description	Price
7310-1024	Power supply 24VDC, 10 watt, panel mount	$POR
7310-4024	Power supply 24VDC, 40 watt, panel mount	$POR
7310-6024	Power supply 24VDC, 60 watt, panel mount	$POR

Blue-White Digital Flow Meter F-1000

- Blue-White's Digital F-1000 flow meter does not require electrical connection. 2 x (AAA) Batteries supplied.
- Easy to install, with clear & easy to read flow rates.
- Technical data: .4 -8000GPM, up to 200° F, up to 300psi, 3/8" - 12" pipe size.
- Made from PVC,PVDF - 3 options for install: Saddle, inline, molded tee
- Model Variations Include:
  RB = Rate only
  TB= Total only
  RT = Rate, and totalizer
- Should NOT be used in dirty water or systems with air
- The F-1000 is a special order, and shipped pre-programmed.

Item No	Pipe Size	GPM	Price
12 06 10	1-1/2" sch40	15.0 - 150.0	$809.10
12 06 11	2" sch40	30.0 - 300.0	$809.10

Blue-White F-2000 Flow Meter

The BW Digital F-2000 paddlewheel flow meter features an easy-to-read digital readout on an LCD screen.

- Easy to read 8-digit, up to 4 decimal positions
- Flow rate and Total Flow display
- AC/DC transformer or battery operated (RT Models only – 4 AA batteries)
- Front Panel security lockout
- 4-20ma and 0-10VDC output models
- These flow meters are quoted and supplied per request using the Model number matrix on page 4 of the downloadable technical data sheet available on our website.

Allow up to 6 weeks for delivery

GAUGES

Pressure Gauges

Liquid filled, Stainless Steel high quality pressure gauges with 1/4" NPT bottom connections. Availible in 2" or 4" diameters.

Item No	Description	Size	Price
12 03 01	0-30 Hg/kPa Vacuum	2"	$95.20
12 03 02	0-60 PSI/kPa Pressure	2"	$95.20
12 03 06	0-100 PSI/kPa Pressure	2"	$103.10
12 03 03	0-30 Hg/kPa Vacuum	4"	$165.90
12 03 04	0-60 PSI/kPa Pressure	4"	$125.55
12 03 05	0-100 PSI/kPa Pressure	4"	$140.50

National Replacement Gauges

Liquid filled, Stainless Steel case, back connection, flange panel mount. 2.5", 1/4"NPT Back Mount 0-60psi

Item No	Description	Price
7216.60	National Replacement Gauge	$95.20

THERMOMETERS

Vari-angle Digital Thermometer with well

This is a one size fits all product. It can replace glass or bi-metal thermometers. It shares the same standard size well as a glass tube thermometer, and can read any scale in C or F. The digits are 3/8" high and powered by light, no batteries required. The head tilts up to 90 degrees so the display is always upright and locks in place. Supplied with a well that screws into a hole threaded to ¾ NPT. Temperature range -50 to 300°F (-45 to 150°C)

Item No	Description	Price
12 04 10	In-line Digital Thermometer c/w Well	$187.45
12 04 09	Brass Well	$22.95

Adjustable Angle Industrial Thermometer

9" Scale, 3 1/2" Stem, 0-160° F/C, does not come with brass thermowell ¾ NPT.
The Alcohol model is not suitable for areas subject to vibration.

Item No	Description	Price
12 04 01	In-Line Thermometer	$73.85
12 04 09	Brass Well	$22.95

Water Level Controller-Ultrasonic

The LIT 25 (Level Indicating Transmitter) by Greyline uses a non-contacting ultrasonic signal to sense water levels, and has a range of 32′ or 10M. The standard cable length is 25′. The electronic controller is small, only 6.18" high by 4.21" wide and 3" deep. The case is water and dust tight, the display is large, and can be inches or centimeters. The unit provides a relay to control the pump or valve used to adjust the water level. A 4-20ma signal available for BMS connection if desired. Simple two button calibration and set point programming. Runs on 110 VAC power. A low cost unit that is highly accurate.

Item No	Description	Price
12 09 01	LIT 25 Level Controller c/w sensor	2723.50

Automatic Hydronic Air Vent

Automatic Air Relief Valve complete with built-in shut off valve and removeable head for cleaning. 1/2 (F)NPT Brass & 3/4 (M)NPT PVC.

Item No	Description	Price
12 02 01	Automatic Hydronic Air Vent	$202.50

Auto Air Relief Valve Assembly

This air relief valve releases entrapped air pockets which accumulate at the high point in the filter or piping systems. Initially water in the filter or piping raises the valve float and positively seals the specifically designed small orifice. During operation, entrapped air rises to the high point of the valve displacing water and lowering the float. This opens the orifice allowing the air to escape. When the air is evacuated, the water again rises the float, resealing the orifice. Comes with one ¾" sched 80 Threaded Tee, two ¾" sched 80 Ball Valves, one ¾" sched 80 close nipple. Has a ¾"NPT fitting on the bottom. Assembled height 12 ½"

Item No	Description	Price
1000-5991	Auto Air Relief Valve Assembly	$664.95

Flowswitch

All the wetted parts are plastic or 316 stainless steel, the switch is magnetic, and there are no seals to fail. It can be used in pipe from 1" to 6" in diameter, the vane is marked and can be trimmed for each pipe size. The body is threaded with 1 inch MNPT. The electrical rating is 5 amps at 125/250 VAC. It is 3 wire so can be used as normally open or normally closed.

Item No	Description	Price
12 04 07	V8 Flotect Flowswitch	$277.60

Tubing

Tubing for chemical feed pumps & gas chlorine systems

Model No	Description	Price/ft
TU14	1/4"OD x 1/8"ID High density polyethylene tubing	$1.20
TU38	3/8" OD x 1/4" ID High density polyethylene tubing	$1.20

25636	1/4" OD premium tubing (per foot)	$2.40

CHEMICAL FEED PUMPS AND PARTS

LMI Pumps

All LMI pumps listed come with an injector, foot valve, ceramic weight, 10' of tubing, 5' of discharge (clear) tubing, and 4 tubing connectors. We endeavor to keep stock of the most common feed pumps for municipal pool applications, as listed below for quick delivery.

PD Series pumps

These pumps are designed specifically for industrial water treatment applications. Straight forward controls and split scale dial ensures precision even at a lower flow rate.

- Improved drive mechanism for powerful stroke & consistent accuracy
- Simplified capacity setting with constant stroke range to maintain calibration across an adjustable range
- Robust FASTPRIME™ liquid ends

Model No	Capacity	Price
Manual PD Series Chemical Metering Pump		
PD041-828-NI	16 GPD @250psi	$896.00
PD051-838-NI	26.4 GPD @ 150psi	$896.00
PD061-848-NI	48GPD @ 70psi	$896.00

B Series pumps

These pumps are ideal for applications where more flexibility & control of stroke length and frequency is required. The rugged construction and time tested design make the B Series pumps a consistent performer.

- Adjustable stroke frequency and speed
- Manually adjustable stroke length provides accurate dose
- NEMA 4X housing from protection in corrosive environments

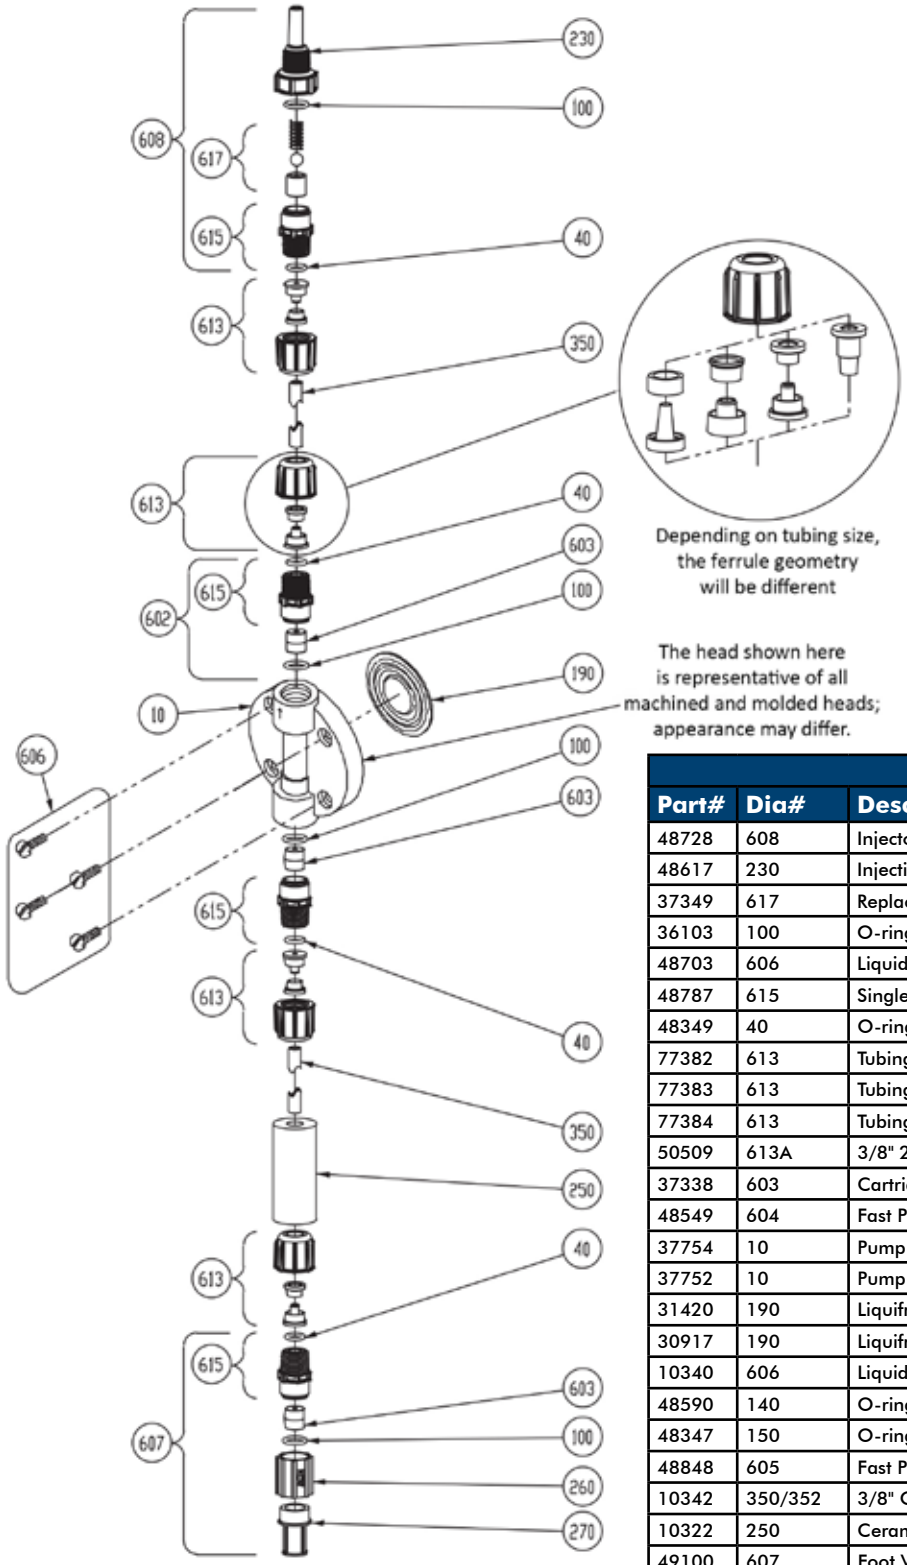

Model No	Capacity	Price
Adjustable stroke and speed

Stenner Peristaltic Pumps

Stenner peristaltic metering pumps are self-priming that achieves pumping action by moving a system of rollers against a flexible tube. The pumped fluids are never exposed to the air or to the mechanical moving parts. The roller design prevents siphoning by proving a constant seal on the pump tube.

- Automatic degassing
- Self-priming against pressure
- Primes up to 25 feet
- Interchangeable outputs with tube size change
- All pumps listed are standard 3/8"
- All new pumps come with injector valve, suction line strainer, 2 x connecting nut, 2 x adapter, 1 x extra pump tube and -10 feet of polyethylene tubing

CHEMICAL STORAGE TANKS

Double walled containment tanks

Gemini Cylindrical Tanks

These polyethylene chemical storage tanks are sold as tightly fitting nesting pairs. All come with a vented twist lid, pump suction & pick up port with return drain built into a pump mounting shelf with fittings on a standard dome top.

Come in Blue or Natural colour. Approximately 3-4 weeks delivery.

Model No	Dimensions Dia x Height	Capacity Inner/outer	Price
62G	25.5" x 38"	62GAL/74GAL	$POR

220G	48" x 48"	220GAL/278GAL	$POR
320G	48" x 60.5"	320GAL/385GAL	$POR

Gemini Square Tanks

These square double walled polyethylene chemical storage tanks fit into corners to use the valuable space in your pump room efficiently. These have 22% more capacity than cylindrical tanks of the same size. This is the perfect system for storing and dispensing your chemicals and come with standard features such as pump mounting platform, pump suction port, threaded vented lid, and threaded fittings. Larger tanks have ribbed construction for extra durability without the extra weight of additional reinforcement material. Come in blue or natural colour. Approximately 3-4 weeks delivery.

GEMINI SQUARE TANKS

GEMINI RIBBED SQUARE TANK

Single walled containment tanks

Open Top Tanks

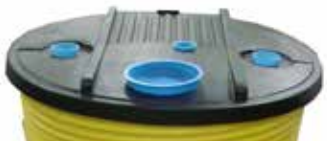

All the closed top tanks listed below are cylindrical, with integral tops. Tanks can be ordered with a bulkhead fitting at the bottom, but it must be requested with order. Plumbing parts, for instance nipples and valves are not supplied unless ordered separately. Bulkhead fitting sizes vary with the size of the tanks. All the closed top tanks can also be used as secondary containment vessels by cutting off the tops, which can be easily done with a carpenters handsaw or power tools.

Model No	Capacity	Dimensions	Price
OTL45	45 USG	27"D X 31"H c/w lid	$558.45
OTL85	102 USG	29"D X 49"H c/w lid	$694.95

OT400	480 USG	58"D X 54"H c/w lid	$1673.40

LMI Tank

This polyethylene tank is suitable for typical pool chemicals; bleach, acid or soda ash. It is tapered at the bottom and comes with a cover that has flat areas to mount a pump, an agitator and/or liquid level switch. If secondary containment is required, we recommend the OTL45 tank.

Model No	Capacity	Dimensions	Price
26350-1	50GAL	19" diameter at the bottom 22" diameter at the top x 40" tall	$POR

Closed Top Tanks

These polyethylene vertical dome top liquid storage tanks come in a variety of sizes in addition to ones we have listed. These tanks are suitable for storing liquid chlorine and muriatic acid.
Please specify if you would like a standard ¾" drain spout (bulkhead) installed. Some larger tanks can have larger bulkheads installed. Let us know your needs. Colour can vary. Please cross reference dimensions of the tank to ensure fits into the intended space.
Timeline to supply can vary: 1-2 weeks is common, however could be 6-8 weeks in some cases.

Clamp Mount Agitator

Clamp Mount agitator 12 12 51 is a direct drive, 1750rpm 1/3HP 110/230V TEFC (totally enclosed fan cooled) motor with a 5/8" diameter x 48" long stainless-steel shaft. The coupling is stainless steel with 4 set screws. Comes with a 4" dia 3 blade propeller. For larger tanks over 100 GAL, add an extra propeller to the shaft. Clamp and motor mount is cast iron.
This one is not suitable for D.E.

Model No	Description	Price
12 12 51	Clamp Mount Agitator - complete	$1309.50
12 12 52	Extra 4" x 3 Blade Propeller	$240.00
12 12 53	Extra 5/8"dia x 48" long ss shaft	$196.00
12 12 54	Replacement coupling 5/8" x 5/8" ID.	$210.00

Clamp Mount agitator 12 12 60 gear drive 350rpm 1/HP 115V TEFC (totally enclosed fan cooled) motor with a 5/8" diameter 48"x long stainless-steel shaft. The propeller is cast 316 stainless steel and approx. 10" in diameter. This set-up is suitable for D.E.

12 12 60	Clamp Mount Agitator for D.E. Complete	$POR

BECSYS WATER CHEMISTRY CONTROLLERS

From simple reliable models to advanced full featured and expandable controllers the BECSys water chemistry controllers have you covered.

BECSys 3

Large 2-line backlit display clearly shows the status of water quality, and alarms are prominently displayed beneath the readings. Set points and calibration screens are easily accessible with the touch of a button. Communications package is available and support through BECSys Live.

BECSys 5

Includes advanced sensors and features that help operators produce and maintain clearly healthy water. Energy, Water and Chemical savings can be realized by using the BECSys5's advanced scalable capabilities. Operation and maintenance teams can be more efficient with proactive status messaging through BECSys Live.

BECSys 7

All the features of the BECSys 5 are included with the Sys7 plus much more. The Sys7 has an expandable platform that many equipment room operations can be integrated helping operators be extremely efficient. Comprehensive filtration control feature is available as well. Operation and maintenance teams will become more efficient with the proactive messaging through BECSys Live which provides a complete view of the mechanical room and circulation system performance.

BECSys Live

- Simple, secure access to your BECSys controller.
- Can be used with a PC, Mac, tablet, smartphones.
- Accounts protected by 2 factor authentication and all messages are encrypted for security
- Real time dashboards automatically updated with the latest readings and system info
- You can change a set point or an alarm point remotely (will need controller access code)
- Review graphs that show data for your pools chemistry trends or issues
- Reporting available that summarize key performance metrics, such as alarm patterns or parameter changes, test kit logs and water quality readings.

BECSYS WATER CHEMISTRY CONTROLLERS

Alkalinity Monitoring & Control

Managing total Alkalinity is critical for maintaining optimal water balance. With a BECSys Alkalinity Meter, TA can be monitored and controlled. For TA control, BECSys 5 and BECSys 7 controllers will automatically select between acid and CO2, for pH control, based upon operator defined TA set points.

CO2 Feed Solutions

CO2 is a widely recognized method for pH control. CO2 can be used effectively in conjunction with acid to control both pH and Alkalinity. BECSys 5 and BECSys 7 controllers equipped with a BECSys Alkalinity meter will monitor pool TA and automatically select between acid and CO2 for pH control based upon the operator defined TA set points. In most pools, routine bicarb additions to maintain alkalinity will no longer be necessary. Two ranges are available 5-50 and 20-200 SCFH (Standard Cubic Feet per Hour)

BECSysBW

The BECSysBW Automatic filter control provides automatic backwash control of up to 16 filters. Continuously monitoring and controlling system pressures, flow rates and backwash holding tank levels.

BECS Parts

Part No	Description	Price
8660106	BECSys pH Sensor with 36" cable	$468.75

ETS-UV™ Disinfection generators

Ultraviolet (UV) irradiation is commonly used in pool water systems and is one of the most effective methods for inactivating harmful pathogens such as Listeria, E. coli, Giardia and chlorine tolerant pathogens like Cryptosporidium.

UV also destroys chlorine disinfection byproducts (chloramines).

All ETS systems for pools, spas, spray parks are medium pressure (emitting wavelengths in the range of 200nm to 400nm) which is most effective in destroying chloramines and deactivating pathogens, algae, molds and viruses.

UV systems come as a complete package including the UV chamber, EZ strainer, and electrical control panel, and pipe shield.

For a new or replacement system we will work with you to qualify and size your project properly. Key factors that we consider are ultraviolet transmittance, dose requirements, pipe size, flow rate and available power. For a new installation, power may need upgrading.

Advantages of UV Disinfection

- Improved water quality
- Does not change the taste, colour, pH or odor of the water.
- Requires no additional storage or handling of chemicals
- Effective at inactivating pathogens
- Can reduce chemical usage & improve air quality & smell

Wafer™ UV Generator

The new Wafer UV generator is about 1/3 of the size of comparative solutions making it easy to install and retrofit into tight mechanical rooms. This unique UV chamber offers the most compact & efficient UV solution available today.

- Smaller footprint
- Horizontal or Vertical installations.
- Simpler & faster to maintain
- Increased safety
- Enhanced & more efficient power control
- New Twistlok® quick release lamp system
- 30% to 100% digital dose pacing built-in. Saves power using just enough to hit dose set point.

Seal kit contains: Quartz sleeve seals for 4 seal changes, end cap seals, UV monitor seals, wiper blades, wiper shaft seals, wiper drive.

Barrier Ti

The Barrier Ti UV treatment systems offers three different models, each sized for smaller pool applications such as hotel, swim school or smaller aquatic facilities. They are constructed from titanium for advanced corrosion resistance. This low-pressure system offers dependable and user-friendly secondary disinfection for aquatic applications.

NSF-50 3 Log Crypto certified

Simple Spectra Control with online remote monitoring.

BarrierTi

The use of Generic, or non-OEM lamps or any other brand parts voids the warranty, NSF 50 and third-party validation.

Saline Water Treatment Systems *by ChlorKing*

These systems are beneficial for facilities & pool operators who are looking at energy efficient, cost effective and sustainable solutions for commercial pool disinfectant systems.

Pool water + salt + electrolytic cell = sodium hypochlorite

Chlor SM Saline Generator

CHLOR 2.0MSM - 2.2 lbs a day
CHLOR 5.0MSM - 6 lbs a day
CHLOR 25SM - 28 lbs a day

Features & key points

- NSF-50 approved for pool & spa applications
- Capable of handling high use & large bodies of water
- A mild saline solution of 3500-5000ppm of saline solution is used to produce your active sanitizer
- Single Cell Technology in large format cells are ideal for installation and maintenance
- Substantially lower or eliminate the cost of transporting and storage of DG shipments of chlorine
- Water cooled power supply, which is more efficient than air cooling. Electronics are protected from corrosive pump/mechanical room air.
- Clear reaction chamber for easy viewing & inspection of cell condition
- Efficient Switch Mode Technology Power Supply is equipped with Digital display
- 15,000-hour cell life
- Self-Cleaning reverse polarity design. For areas with harder water an automatic acid wash module can be used for efficient cleaning of cells process.
- Optional additional saturated salt feeder, allow for brine solution to be added from back of house, making maintenance easier with no down time to your patrons. This automatically maintains salinity at a preset level.
- Set up is off line, which allows service to equipment without shutting down circulation system

Additional items to enhance your system:

Saturated Salt Feeder

Handheld Salinity Gauge

Acid Wash Kit

Contact our office for more information and pricing.

COMMERCIAL SALT GENERATORS

Nexgen on site Chlorine Generator *by ChlorKing*

Features & key points

- NSF-50 approved for pool & spa applications
- Capable of handling high use & large bodies of water
- Can independently sanitize up to 6 bodies of water
- Skid mounted with castors to roll in place – will fit through all standard door openings
- Self-Cleaning reverse polarity design improves the life of the cell and decreases maintenance
- Offline installation, allows the operator to service equipment without shutting down the circulation system
- Touch Screen provides system status, temperature, salinity, active alarms, and more
- Optional communication port – for remote access to monitor alerts and equipment function
- Offers total control of TDS and raw material consumption
- Does not require salt to be added to the body of the water
- The system maintains brine concentration that is circulated in the cells which are converted to chlorine
- Uses pool as source water, the Nexgen produces a pH neutral sodium hypochlorite at a strength of upto 2500ppm
- Chlorine is produced on demand and is held in the production tank for distribution to the body of water
- Lowers the amount of pH correction chemicals such as muriatic acid required to balance pool water
- Venting is required, to relieve byproduct which has the additional advantage of making it compatible with all pool control manufactures

Contact our office for more information and pricing.

Hayward Salt Generator

The C Series Electronic Salt Chlorine Generators provide a sanitation solution specifically designed to meet the high chlorine demand of commercial pools. The benefits of salt chlorine include softer water, eliminate the need for transporting and handling chlorine, reduces chloramines and the accompanying odors.

Saline C6.0 (6lbs a day) and C11.0 (11lbs a day) Commercial sized units are available.

POOL HEATERS

Coates Electric Pool Heater

Coates electric pool heaters all come with a stainless steel tank, flow switch, manual reset hi-limit, heavy duty contactor, and element and flow switch "on" lights. The CE Series is available in 12, 15, or 18 kW, and connections are 1-1/2" male NPT. The CPH SERIES is 24 or 30 kW, and also 1-1/2" connections. The PHS SERIES is 36, 45, 54, or 57 kW, and 2" connections. All are available in the following voltages: 240V, 1ph; 240V, 3ph, 208V, 3ph, or 600V, 3ph. All heaters are custom order and larger heaters to 300kW can be quoted. Parts are also available. Please call with Heater Model, and supply voltage.

Model No	kW	Volts	Price
12412CE	12kW	240V 1 Ph	$5493.30
12415CE	15kW	240V 1 Ph	$5551.00
12418CE	18kW	240V 1 Ph	$5608.65
12424CPH	24kW	240V 1 Ph	$5267.00
12430CPH	30kW	240V 1 Ph	$5372.00

CHLORINATORS

Pulsar Chlorinators

The Pulsar automated feed systems are designed to use with chlorine pucks or briquettes. The feeders hold a supply of the pucks and the feeder directs water through the system to create a consistent high strength bleach solution to feed.

Pulsar Precision (Pool)
Pulsar Precision 30 (Spa)*

*Recommended for use on bodies of water 500USG to 10,000USG

Item No	Description	Unit Price	Pallet (24)
30563	Pulsar Plus 50LB Briquettes	$311.20	$6934.80

GAS CHLORINE EQUIPMENT

Gas Chlorine is still the least expensive form of Chlorine and the only form of chlorine that does not contain byproducts that increase the TDS of pool water as chlorine is being added. Superior Gas Chlorinator systems by Chemical Injection Technologies Inc. uses a unique design that requires fewer parts. All vacuum gas chlorinators work on the same principles, so Superior components (tank unit, ejector, etc.) can replace similar components of all brands currently in use at your facility. Three year warranty.

Basic System for Single Pool Operation

System consists of:

- 1 x Vacuum regulator
- 1 x Rate valve
- 1 x Ejector
- 25' of 3/8 OD tubing
- 10 Lead washers
- 1 Vent screen
- 1 Manual

Item No	Part No	Description	Price
12 20 01	CL-1	Single pool Chlorinator System	$4278.70
Specify 4, 10, 25, 50 or 100 lbs/day feed capacity.			

Basic System with 2 Auto-Switchover Vacuum Regulators

System consists of:

- 2 x Latching vacuum regulators
- 1 x Rate valve
- 1 x Ejector
- 1 x Vent Valve
- 25' of 3/8 OD tubing
- 10 Lead washers
- 1 Vent screen
- 1 Manual

Item No	Part No	Description	Price
12 20 02	CL-16	Single pool Chlorinator System with 2 auto-switchover vacuum regulators	$7630.50
Specify 4, 10, 25, 50 or 100 lbs/day feed capacity.			

Additional Feed Point

The additional feed point allows you to run two pools. You will need both the Remote Meter (RM-1) and the Ejector (EJ-1) to create the additional feed point.

RM-1

EJ-1

Item No	Description	Price
RM-1	CL2 Remote Meter Panel To 100 PPD	$1212.35
12 21 55	Ejector; CL2/SO2 Hi/Lo Pres To 100PPD (2000Gm/Hr)	$816.20
Specify 4, 10, 25, 50 or 100 lbs/day feed capacity.		

Gemini Gas Shutoff System

This is a dual cylinder Emergency shutoff system suitable for facilities that use gas chlorine for pool sanitation. These systems are designed for installation in conjunction with automatic switchover systems (by others) that employ two chlorine containers to provide a flow of gas chlorine.

- Actuator installs easily with no special tools
- Helps to mitigate the impact of a gas leak as required by risk management
- Quickly terminates leak to prevent gas exposure
- Nema 4X rated enclosures
- Self containted battery power assures operation even in a power failure
- Uses 115or 230 VAC only to re-charge battery

Item No	Description	Price
12 18 22	Dual Cylinder shutoff system	$POR

Gas CL2 Two Cylinder Scale

- Low fiberglass base for corrossive resistance and ease of use
- Mechanical scale with 2 readouts and 2 tare adjustments so scale weighs only cylinder contents (150 lbs/gas per cylinder
- Safety chains for each cylinder

Item No	Description	Price
12 20 04	2 Cylinder scale Mechanical #2330	$5604.40
12 20 05	2 Cylinder scale Digital #2350	$7885.35

Switchover Module

Switchover Module plumbed between chlorinators on gas chlorine system.

For more product information, see our website.

Item No	Description	Price
SO-1	Switchover Module (plumbed between chlorinators)	$2476.50

Lead washers for Chlorine Gas Cylinders

CET GAS DETECTION SYSTEM

FCS-4 Flexible Control System Controller

The FCS-4 communicates with digital transmitters and remote devices. This high-performance controller has ability to add up to 4 channels of remote sensing.

- Comes with 8.1cm LED display for easy reading behind glass enclosures
- Comes with modbus LAN communication
- MODBUS WAN output
- 4 internal 5A @240VAC SPDT relays
- Multiple types of gas configurations can be accomodated
- 2 strobe/horn alarm outputs
- Optional alternate BACnet ® output for communicating with a building automation system (BAS)
- Optional add on top mounted strobe, factory installed on enclosure. 3" dia x .4.5" high Red Lens

Item No	Description	Price
FCS-4	FCS-4 Flexible Control System Controller	$POR

CGAS Analog Detector/Transmitter

Single channel, electrochemical chlorine sensor. Pre-calibrated to your selected gas and range.

- 4/20mv output
- Large range of target gas applications to choose from
- Bright LCD display to show gas ranges in low light rooms
- Plug & Play smart sensor replacement
- Water/dust tight enclosure

Item No	Description	Price
CGAS	CGAS Analog Detector/Transmitter	$POR

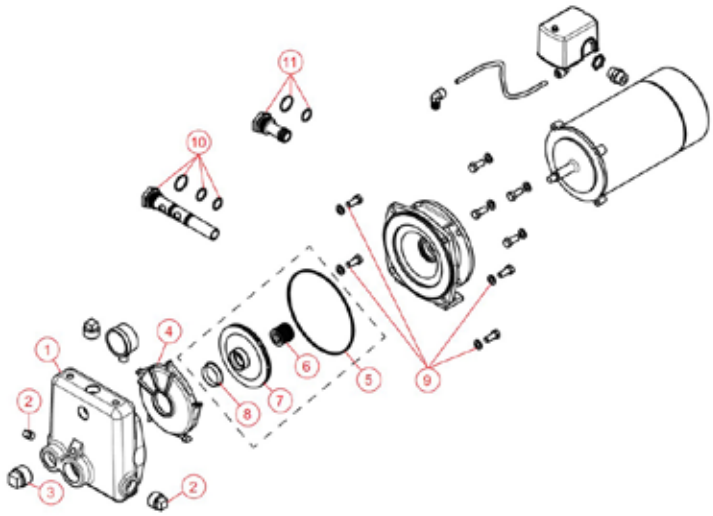

Franklin (Jacuzzi) Booster Pump

This C series pump is made from iron and stainless steel impeller, allowing it to withstand dry or hot (up to 140°F /60°C) running. It is to increase and keep pressure up in a pressurized system.

Performance: 5C 6 GPM at 50 PSI 63 PSI maximum
7C 9.5 GPM at 50 PSI 61 PSI maximum

Item No	HP	Description	Voltage	Price
FRA-91060020	½	Jacuzzi 5C	115/230	$1090.00
FRA-91060053	¾	Jacuzzi 7C	115/230	$1150.55
NOTE: This pump will withstand dry or hot running.

NOTE: All pumps supplied as 110/220 VAC single phase unless otherwise requested. Other voltages available on request.

TAYLOR TEST KITS AND REAGENTS

Since 1930, Taylor Technologies has developed reliable, easy to use reagents and test kits. In aquatics, Taylor is the most common brand used by pool operators and health authorities because of the reliable & accurate results. We carry a complete range of kits to suit public aquatic centres, and have expertise to help you select the correct reagents and test kits for your application.

Labelling and MSDS sheets are DOT compliant.

LaMotte SpinTouch Water Tester

One water sample gives results on ten pool parameters in just 60 seconds. BECSys 5 and 7 models, with LUI board, can accept readings directly from the SpinTouch. It keeps record keeping easy along with controller adjustments.

Item No	Description	Price
3581	SpinTouch Water Tester	$2090.85
4329J	SpinTouch Water Tester Test Discs (100 Pack)	$464.75

Palintest Lumiso Kit & Replacement Reagents

This Lumiso LMP106 photometer kit provides simple and effective pool water testing. It is quick, accurate and reliable for regular testing of public swimming pool water. The testing tablets have a long expiry date range. USB and QR code connectivity to enable data management.

Contents of the Lumiso Pool Test 6 kit
Free Chlorine (or bromine) DPD XF AP013 100 tablets
Total Chlorine DPDXT AP033 100 tablets
Cyanuric Acid CyA AP087 50 tablets
Alkalinity Alkaphot AP188 50 tablets
Calcium Calcicol #1 & Calcicol #2AP252 50 tablets

Ranges for Lumiso Photometer Pool test 6
Free Chlorine 0.01 to 10.0
Total Chlorine 0.01 to 10.0
Bromine 0.04 to 20.0
Alkalinity 10 to 500
Calcium Hardness 5 to 00
Cyanuric Acid 2 to 200
Phenol Red pH 6.8 to 8.4

Item No	Description	Price
LMP106	Lumiso Photometer Pool Test 6 kit (extended cL2 range)	$1680.10
AP013	DPD XF extended range 0-10 free CL2 - Box of 250 tablets	$90.80
AP033	DPD XF + DPT XT Kit extended range 0-10 CL2 (free + total) - 250 tablets	$185.85
AP130	Phenol Red (pH)6.5-8.5 range - Box of 250 tablets	$77.70

Warranty does not cover units that have come out of calibration
https://www.palintest.com/global-warranty-policy/

Please note: When ordering replacement chlorine testing tablets (DPD # 1 free chlorine) if you have an older Palintest photometer, please let us know which chlorine range you require 0-5 or Extended range (XF) 0-10. Often your photometer unit will tell you on screen, or take note of the remaining tablets you have on hand.

CHEMICALS

Oxy Out

Non chlorine shock treatment. Alternative to superchlorination. Reduces chloramines.

Item No	Product	Unit	Price
13 06 02	Oxy Out	2 x 7 kg	$159.05
13 06 03	Oxy Out	25 kg	$264.20

Algaecide

Formula 500 (40% Polyquat) - Commercial strength algicide that kills visible algae and prevents growth of new algae.

Formula 6000 (60% Polyquat) - Special order, non-stocked item. Extra strentgh version of Formula 500 for water fountain applications. Formula 500 is for public pools.

Item No	Product	Unit	Price
13 06 05	Formula 500	4 x 4 L	$294.95
13 06 26	Formula 6000	4 x 4 L	$388.60

TNL Cleaner

General purpose cleaning product. Safe for all areas of the pool.

Item No	Product	Unit	Price
13 06 07	TNL Cleaner	4 x 4 L	$131.95

Clarifiers

Clarifier used for removing suspended solids from pools.

Item No	Product	Unit	Price
13 06 09	C-Clear	4 x 4L	$161.80
76030NCM	Natural Chemistry Clear (32oz/946ml	946ml	$18.30

Meta Sol

Reduces rust and metal staining in pools.

Item No	Product	Unit	Price
13 06 11	Meta-Sol	4 x 4 L	$171.10

Defoamer

Fast acting silicone based emulsion designed to eliminate and prevent unwanted foam in hot tubs and spas

Item No	Product	Unit	Price
13 06 14	Defoamer	4 x 4 L	$231.40

Filter Free

Granular cleaner designed to help remove rust, oils, scale, other contaminants from sand filters, that regular backwash cannot remove.

The distinct pH colour change tells you how active the solution is and when it you need more powder. Vibrant red is at the ideal active cleaning strength, and yellow orange indicates soloution is "used up" or too weak indicating you need to add more powder.

Item No	Product	Unit	Price
13 06 16	Filter Free	2 x 8 kg	$109.05

Stabilized Chlorine Tablets

Often referred to as Chlorine Pucks, highly concentrated slow disolving sanitizer used primarily in outdoor applications. These are formulated with a built-in stabilizer (Cyanuric Acid) that helps sheild the chlorine from the degrading from UV rays.

Item No	Size/Vol	Unit	Price
47030P85C	Club Pro Super Pucks Stabilized Chlorinated 200g Tablets	20kg	$152.45

Granular Chlorine (65%) Unstabilized

Liquid Chlorine (12%)

Item No	Size/Vol	Per Unit	10+
13 07 01	4 x 4L Case	$61.10	$53.25

pH Up

Powder used to increase pH

Item No	Product	Size	Price
27081P25C	Club Pro pH Plus	1 x 8 kg	$31.65

pH Down

Powder used to decrease pH

Item No	Product	Size	Price
27082P25CP	Club Pro Ph Down	8 kg	$30.70
3007180	Summer Smiles pH Down	25 kg	$82.35

Enzymes

An enzyme product that breaks down body oils, cosmetics, suntan lotion and other non-living organic contaminants in pool water.

Item No	Description	Size	Price
73310NCM	Natural Chemistry Pool Perfect	4 x 3 L	$189.00

Pool Phosfree

When added to the skimmer, a thin coating of phosfree forms on the filter media. As pool water flows through the filter, phosphats are reduced.

Item No	Product	Unit	Price
75220	Pool Phosfree	6 x 2L	$168.50

Muriatic Acid/Hydrochloric Acid

AKA Hydrochloric acid, used to lower pH.

Item No	Size/Vol	Per Unit	10+
13 07 04	4 x 4L Case	$86.15	$75.10

Ultra Acid

Ultra Acid has all the strength of standard muriatic acid but less harmful effects. It replaces regular Muriatic Acid for pH and Alkalinity adjustment, acid washing, cleaning filters and controller electrodes. Like regular acid, Ultra Acid needs dilution when used for pH correction.

Item No	Size/Vol	Per Unit	10+
13 07 05	4 x 4L Case	$79.75	$74.25

AquaSalt

For use with chlorine generators, formulated for pool use only.

Item No	Size/Vol	Per Unit	Pallet
13 05 04	18.1 KG/bag	$19.45	$1178.10
Pallet contains 63 bags			

Soda Ash Dense

Fast acting chemical used to raise pH in pool water. It also slightly raises alkalinity.

Item No	Size/Vol	Per Unit	10+
13 07 07	22.7 kg	$49.95	$45.50

Calcium Chloride

Used to raise calcium hardness.

Item No	Size/Vol	Per Unit	10+
13 07 08	22.7 kg	$47.80	$41.65

Sodium Bicarbonate

Used to raise pH and alkalinity.

Item No	Size/Vol	Per Unit	10+
13 07 09	22.7 kg	$73.30	$63.90

Sodium Thiosulphate

Used to neutralize chlorine levels in pool water

Item No	Size/Vol	Per Unit	10+
13 07 10	25 kg	$171.60	$149.60

Cyanuric Acid/Pool Stabilizer

Granular product, used to stabilize free chlorine in outdoor swimming pools

Item No	Size/Vol	Per Unit	10+
13 07 13	50 kg	$249.60	N/A

Clarita Ultra - 2 in 1

Concentrated Clarifier. Fast acting clarifier that improves filter efficency by coagulating particles for filter or manual vacuum to remove.

Item No	Product	Size	Price
300708001	Clarita Concentrated Clarifier	1L Bottle	$14.15

ACO Active Catalytic Oxidation

ACO Active Catalytic Oxidation is a replacement for Cyanuric Acid (CYA) protecting Chlorine from the sun as well as 25-30ppm of CYA, without reducing the ORP of the water. Remember, CYA reduces the free available chlorine, therefore reducing the ORP.

Item No	Product	Size	Price
20021	ACO - Active Catalytic Oxidation	5 Gal	$149.60

Dosing:
Monthly dosage of 1 gal/20,000gal of pool water
The first dosage is always to be doubled. Shake before use
Pour directly into the pool.

APF All Poly Flocculant

A combined products which contains multi-spectrum coagulant and flocculant.

Item No	Product	Size	Price
20011	APF All Poly Flocculant	5 Gal	$149.60

BECS Alkalinity Reagent

For use with the BECSys Alkalinity Meter

Item No	Product	Size	Price
8680063	BECS Alkalinity Reagent	1.89L/64oz	$131.25

For Chemical Tips & Information - Chemical Dosage Table see our website www.commercialaquaticsupplies

SPECIALTY MAINTENANCE

Safety Tread, by 3M

Safety Tread is made with a mineral-coated and slip resistant material. Works particularly well when edge seal is used around all the edges to prevent water from migrating underneath. 5oz tubes of edge seal cover approximately 100 lineal feet (30M).

Item No	Description	Price
12 01 30	2" wide x 60' long Roll Safety Tread	$166.80
12 01 31	4" wide x 60' long Roll Safety Tread	$338.60
12 01 33	12" wide sold per foot	$18.55/ft
12 01 32	Edge Seal, 5oz tube	$25.40

Barrier Tape

Yellow (non-adhesive) plastic barrier tape. Says "Pool Closed for Maintenance"

Item No	Description	Price
CU-BT-3000-15	TT16596 Barrier Tape/Pool Closed for Maintenance 3" x 1000'	$74.90

Scrubbies

for use with Stainless Steel cleaner

We recommend using fine grade or medium grade scrubbie pads to gently agitate the surface of the steel with the cleaner. Use white where corrosion has not broken the surface of the steel, and use maroon medium grade where corrosion and pitting is present.

Item No	Description	Price
12 01 26	Fine grade white scrubbies	$5.00
12 01 27	Medium grade maroon scrubbies	$5.00

Stainless Steel Cleaning & Sealing

All stainless steel will rust if exposed to adverse conditions such as chlorides and other corrosive materials. With proper cleaning & sealing procedures, rust can be minimized if not eliminated over time.

- Use Spectra System 1 (liquid) or Spectra System 2 (gel formulation) to clean any stainless steel in your facility; such as railings and grab bars, lockers, starting blocks, water fountains.
- System 1 and System 2 are the same concentration of cleaner, System 2 is a gel formulation.
- Use Spectra Shield to seal the surface to help prevent the chlorides and other materials from reacting with the surface of the steel.

This system is very effective when used correctly.
Contact our office to receive complete instructions and for clarification to suit your specific situation.

Item No	Description	Price
12 01 37	Spectra System 1 Cleaner - 1 gallon	$168.35
12 01 42	Spectra System 1 Cleaner - 5 gallon	$490.10
12 01 38	Spectra System 2 Cleaner - 1 gallon	$197.05
12 01 44	Spectra System 2 Cleaner - 5 gallon	$620.80
12 01 41	Spectra Shield – Sealant 1 gallon	$315.25

Cleaner for stainless steel boilers

(Viessmann products)

Item No	Description	Price
12 01 39	3050 Cleaner – 1 gallon container	$232.85
12 01 40	3050 Cleaner – 5 gallon container	$709.95

A/B Epoxy Putty

This is an excellent product for aquatic centers. A/B Putty hardens in wet areas (even under water) and adheres very well to virtually any substrate. Uses around an aquatic center include: temporary patch on a filter, refasten a tile that has come loose (change room floor or under water), filling a crack in pool concrete, etc.

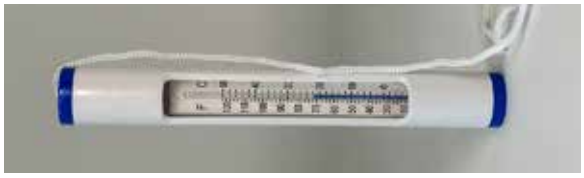

Item No	Description	Price
12 01 10	14 oz Epoxy Putty - White	$43.80

Magic Lube II

A high quality silicone lubricant that does not dry or deteriorate from contact with chlorinated water. For use on metal or plastic.

Item No	Description	Price
ALA-60-1003	Magic Lube II 5oz	$32.40

Thermometer

This all plastic thermometer does not have glass or mercury, making it a safe choice for around the pool.

Item No	Description	Price
075820BU	Club Pro Deluxe Thermometer	$8.60

Lube Tube

LubeTube is a multi-purpose lubricant-sealant suitable for O-rings on swimming pool/spa equipment & plumbing. LubeTube lubricates and seals with a barrier of PTFE. It is safe on metals, plastics and painted surfaces. It is waterproof, odorless, non-toxic, non-staining, non-flammable, non-corrosive, non-rusting, and biodegradable. It's environmentally safe with a USDA H-1 listing. It will not melt, dry out, form gummy deposits, separate, crack, evaporate, run or drip.

Item No	Description	Price
12 01 22	Lube Tube 4oz	$18.45

Leaf Skimmers

Item No	Description	Price
R121196	#126 Flat Heavy Duty Skimmer, 3/8" Solid Aluminum Anodized Frame	$41.25
R121106	#122 Leaf Skimmer, 3/8" Solid Aluminium Frame	$52.70

Herculean Vacuum Head

This 18" heavy duty vacuum head is very durable and stands up to commercial use. Two models to choose from both identical except made from different materials. Chrome plated brass (CPB) which is the most durable model, and Anodized aluminum (AL). The wipers, brushes and wheels are height adjustable and replaceable. Please specify 1 ½" or 2" hose fitting with order

Item No	Description	Price
5116-BRA	Herculean Chrome plated brass model	$824.10
5116-AL	Herculean Anodized aluminum model	$703.50
15016-RB	Replacement outer tires, each	$11.75
15015-NYL	Replacement inner white nylon wheels, each	$9.75
15012	Replacement brush	$123.50
15017	Replacement wiper blades, each	$6.50
15003-CPB	Replacement hose fitting 1 ½" or 2"	$84.50

MANUAL POOL VACUUMS

Transfer Manual Pool Vacuum, by Spectrum

These Transfer Pump Deluxe (formerly Savage) are portable swimming pool vacuums that use a Sta-Rite pump on a stainless steel cart. These vacuums discharge waste with a discharge hose.

- Check-valve on the pump intake.
- Hose bib connection for easy priming.
- 100' power cord
- Barbed hose fittings for connection of discharge and suction hoses
- 6" pneumatic wheels
- 1HP plugs into standard 115V outlet – 1 ½" hose fitting
- **Vacuum pole, head, hoses are all sold separately**

TRANSFER PUMP DELUXE VACUUM

Model No	Description	Price
11100-00	Transfer Pump Deluxe 1HP, 1 ½" fitting	$5298.70
Plus Factory Freight		

BKP Vacuum, by Spectrum

These portable swimming pool vacuums use a filter in a compact canister design. Sturdy design in a small footprint of about 20" wheel to wheel.

- Available in 1HP only
- Stainless steel canister
- Sta-Rite pump
- 13" pneumatic wheels
- 100' power cord
- 1.5" shut-off valves and quick-connect hose fittings

Vacuum Hose, Discharge Hose & Band Clamp, Pole and Vacuum Head are not included and sold separately.

BKP VACUUM

Item No	Description	Price
10700-00	BKP Vacuum 1 HP(110 V) 1½ "	$7682.30
C7685	BKP Vacuum, Replacement 105 sq ft cartridge	$214.30
Plus Factory Freight		

Pricing, product information and delivery for gas powered vacuums up to 5 HP available on request

ROBOTIC POOL VACUUM

Dolphin Wave Series *by Maytronics*

All units are zero depth compatible and come with a tangle fee swivel cord. Simply choose the cycle time, cord length and control method on the robot that is best sized for your pool. Feel free to call for advice if you need any help choosing a model for you facility.

Do Not Use in hot tub!

Wave 60

- Cord Length: 60'
- Filter Type: Cartridge
- Wall Climbing: Yes
- Beach entry compatible: Yes
- Air Sensor: Yes
- Cycle Time: 1 or 2.5 hours
- Remote: Ready/Not Included
- Caddy Cart & transformer: Included
- Warranty: 2 year, not including consumables

Spa Electrics Retrofit LED Lighting System

The Spa Electrics Retro fit LED lights have a 3 year warranty.

These lights can make use of existing wiring/conduit already in place. It uses a UL listed quick connect plug system that comes with each light. The light grips into existing niche wall with a Cam-Lock system.

They are low 12VAC and need a transformer for conversion.

Intermatic transformers are specifically designed to supply 12,13 and 14VAC and are suitable for direct connection to underwater pool/spa lights especially LED lighting. A grounded shield between the primary and secondary winding assures safe operation. Built-in circuit protection will disconnect power to the transformer in case of an overload. They have mounting brackets on the top and bottom.

Please note, if you have to pull new cable, we don't supply as this is readily available from an electrical supply store or electrician. Recommend 7-14mm low volt cable.

RETRO R10 LIGHT (R10CL12C1WMP)

POOL PAINT PRODUCTS

Primer and Paint

Gunzite

Gunzite is a two-part epoxy primer for a pplication over fiberglass or unusually rough plaster or concrete surface. Acts as a fill coat on concrete and provides a much smoother surface. Gunzite should only be used as an undercoat for Poxolon or Zeron. Especially effective on sandblasted surfaces. Coverage is approx. 100-150 sq. ft. per gallon.

Item No	Description	Price
14 24 02	1 Gallon	$158.25

Poxoprime II

Poxoprime II is for application over uncoated concrete or plaster. Used as an undercoat for Poxolon or Zeron, Poxoprime II soaks in and seals the surface. Compatibility with wet surfaces helps reduce downtime by allowing the pool to be cleaned and primed in one day. **Do not apply over any old coating.** Coverage is approx. 200-250 sq. ft. per gallon.

Item No	Description	Price
14 24 03	1 Gallon	$166.15

Zeron Epoxy

Zeron Epoxy is the longest lasting epoxy pool coating available. If application process is done properly, life of surface up to 8 years. Requires only one coat, however application requires more effort as this heavy bodied material will not spread as far. Coverage is approx. 125-150 sq. ft. per gallon. Available in white, bikini blue or black.

Item No	Description	Price
14 24 04	1 Gallon	$271.30

Poxolon 2

Poxolon 2 is a high gloss epoxy pool coating that is easy to apply and should yield up to 5 years of service, when applied to a properly prepped & paint primed surface. Two coats are required in all cases and may be applied with roller or sprayer. Coverage is approx. 225-250 sq. ft. per gallon.
Available in white, bikini blue and black. (other colours may be available on special order)

Item No	Description	Price
14 24 06	1 gallon	$300.65

Paralon 2

Paralon 2 is a premium grade chlorinated rubber pool enamel. It is recommended for refinishing existing chlorinated rubber coatings. Two coats of Paralon 2 are required for best results. On more porous or bare surfaces, a third coat maybe necessary. Coverage is approx. 250-275 sq. ft per gallon.
Available in white, bikini blue and black (other colours may be available on special order)

Item No	Description	Price
14 24 07	1 gallon	$269.00

Caulking

Ramuc PSL Nitrile Caulking

High versatile nitrile rubber caulking material specifically designed for use in pool environments.

- Well suited for sealing expansion joints and can handle temperature changes.
- Great for repairing cracks that may develop over time in pool walls, steps.
- Unique formulation allows application into cracks upto ½" wide even in wet conditions.
- Effective for sealing grout lines in tiled pools, particularly in areas prone to water intrusion.
- Tack-free time: 10 mins
- Paintable after 24hour cure time

Item No	Description	Price
922100001	Ramuc® PSL Nitrile Rubber Caulking	$37.50

All New, Sprint with Rapid Lock *by Spectrum*

Precision Starts = Faster Finishes! Introducing Sprint with Rapid Lock™ (patent pending), the boldest redesign to starting blocks in decades and the ultimate lightweight starting block top that will revolutionize performance and competitive swimming. Our advanced wedge locking mechanism delivers an unparalleled and secure method for adjusting the foot wedge, ensuring that you are firmly locked in for explosive starts.

Rapid Lock™ is an innovative design that allows for the adjustment of the foot wedge. This mechanism addresses a common failure point by featuring a faster and more convenient paddle-style handle, eliminating the need for cables and pins.
Compatible with all Spectrum Aquatics starting block bases and most other starting block bases on the market.

- The lightweight design ensures the Sprint is easy to install, remove, and transport.
- Rapid Lock™ features a user-friendly large paddle lever, facilitating quick and easy foot wedge adjustments.
- Designed to be free of cables and pins, eliminating the primary failure point of starting block tops.
- Customizations available on the top and wedge.
- Featuring a grit overlay that offers exceptional traction without causing discomfort to the athlete's feet or hands.
- **Complies with World Aquatics, USA Swimming, NCAA and NFHS regulations.**
- The block top and wedge plate are constructed from 30% glass-filled polypropylene, a durable plastic known for its resistance to corrosion.
- The wedge structure and slide mechanism are crafted from 316L series stainless steel and UHMW.

STARTING PLATFORMS BY SR SMITH

Velocity Advantage *by SR Smith*

This block feature strong fiberglass footboards with a track start wedge on an HDPE composite base. Particularly suitable for bulkheads.

- 28"x 32" Footboard.
- TrueTread (4 colours) or sand tread surface available: Gray, Blue, Red, Yellow
- Track start wedge, adjustable to 5 positions, easily tucks under footboard
- Backstroke start ledge is adjustable to five positions in accordance with FINA standards.
- Three built in backstroke handholds- two centre positions and one on each side
- Marine grade HDPE Composite base, easily mounts on to pool desks or bulkheads with minimal drilling.
- 16" height makes it well suited for bulkheads and end walls with 8" to 13.5" deck to water heights.
- Colorado & Daktronics timing system compatible
- **Meets FINA, NCAA, NFSHSA, USMS, USAS competition pool rules and regulations**

With the various options to customize this starting block, please contact our office for complete information and a quote to suit your application and budget.

VELOCITY ADVANTAGE

Velocity *by SR Smith*

Designed for fast, solid starts, the dual post or single post Velocity Starting Platform is the next generation of Starting Blocks. The fiberglass footboard has outstanding strength as well as a sleek, uniform, high-tech appearance.

- 28"x32" Footboard
- Frame made from commercial grade 1.90" stainless steel, and powder coated for additional protection
- Trackstart wedge is available (5 positions) easily tucks under footboard
- Velocity Dual Post standard set back accommodates 18"-26"
- Velocity Dual Post long reach set back accommodates 27"-36"
- Velocity single post standard & side mount set back 21"-26"
- Velocity single post mid-range set back 28"-32"
- Velocity long reach set back 33"-40"
- Available with TrueTread, in 4 colours: Gray, Blue, Red, Yellow
- Available in Sand Tread as well.
- Available in four frame colours: Pearl White, Silver Gray, Taupe, Royal Blue
- Rock Solid Anchoring system (not included)
- Customer colours and logo's available on sand treaded footboards
- Optional Side handles available
- Colorado & Daktronics timing system compatible
- **Meets FINA, NCAA, NFSHSA, USMS, USAS competition pool rules and regulations**

VELOCITY SINGLE POST

VELOCITY DUAL POST

With the varied styles and customization of this starting block please contact our office for complete information and a quote to suit your application & budget.

Legacy *by SR Smith*

The various Legacy single post* models are ideal for highly competitive swimming facilities. The powder-coated stainless-steel frame is secured to the deck with a patented RockSolid anchor (sold separately) to eliminate platform movement.

- High-impact 24"x32" footboards with laminated core, reinforced with fiberglass in a gelcoat skin with non-slip tread
- The stainless-steel tubing is square 2.5", 304 stainless steel
- Powder coated for added corrosion resistance
- Legacy Standard & Side mount Set back accommodates 21"-26"
- Legacy Mid-Range Set back accommodates 27"-32"
- Legacy Long Reach Set back accommodates 33"-40"
- Optional side handles available
- Timing system compatible
- Choose from 4 different back stroke handle designs - Angled handle, horizontal handle, U-handle, H-handle
- Solid Start edge for enhanced hand grip – comes standard
- Side step or Rear step options
- Four frame colours available Pearl white, Taupe, Silver Gray Royal Blue
- Custom colours and logoing upgrade on footboard available
- **Meets FINA, NCAA, NFSHSA, USMS, USAS competition pool rules and regulations**

Movable Lifeguard Chair *by Nordesco*

Designed by lifeguards for lifeguards. This movable chair was designed for optimum lifeguarding. It has been the best movable lifeguard chair on the market since the mid 90`. First, the rear entrance allows the lifeguard to never lose sight of the pool going up or down the chair, then the large platform makes it possible for him/her to stand on it safely. The large platform, 48in x 48in, has a yellow edge in front, that helps the lifeguard see where it ends. This lifeguard chair is the only one with an adjustable seat, and padded for extra comfort. As all Nordesco's chairs, the Ultra chair is made of high-quality stainless steel that is powder coated to reduce maintenance. It comes in 2 different heights, 6 and 8 feet.

- 304 stainless steel
- Powder coated for low maintenance
- Large 48in x 48in fiberglass reinforced grating
- Adjustable seat
- 4x, 8in front wheels for easy moveability

Model No	Description	Price
53.1000	6 ft Movable Lifeguard Chair	$8260.00

DIVING BOARDS AND STANDS

Diving boards are sold separately from stands

Duraflex®

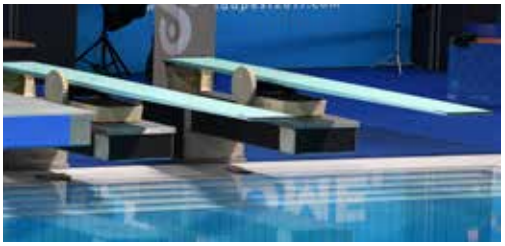

Maxiflex Model B Diving Board, *by Duraflex*

- The 16' Maxiflex model B is the diving board used in all major competition diving events around the world.
- Maxi B are a one-piece ribbed extrusion of aluminum alloy, heat treated for a yield strength of 50,000psi.
- Tapered from fulcrum area to diving tip and tapered from fulcrum area to anchor end.
- This double taper allows the whole board to arc while flexing, creating more lift and higher performance.

Model No	Description	Price
16 11 04	Maxiflex B 16'	$POR

14' & 16' Duraflex Diving Boards, *by Duraflex*

- These Duraflex board are used for recreational diving in municipal pools.
- They conform to FINA and NCAA dimensional requirements.
- One-piece ribbed aluminum alloy, tapered from the fulcrum area to the diving tip and heat treated for yield strength of 50,000psi.

Model No	Description	Price
16 11 01	Duraflex 14'	$POR
16 11 02	Duraflex 16'	$POR

Board Cover, *by Duraflex*

Duraflex has developed a unique diving board cover that gives improved protection to the Duraflex board and will help maintain board performance and longevity.

Model No	Description	Price
16 11 05	Duraflex Board Cover	$POR

New Short Stands, *by Duraflex*

- The All new Duraflex short stand provides a firm foundation for mounting Duraflex springboards, consisting of a short stand anchor and a fulcrum assembly. The major components are heavy duty aluminium and hard anodized castings.
- New mechanisms in the fulcrum, mean there is no longer any slip-stick or 'breaking the footwheel free' when adjusting the fulcrum. This allows divers of all ages to adjust the fulcrum to their desired position.
- The Short Stand features a new alignment beam that runs between the fulcrum and rear end, ensuring correct spacing and alignment. This gives a much more consistent feel of the board, giving divers even more confidence as they take off.
- In conjunction with the alignment beam, the shape of the mounting locations has been designed to allow for more flexibility when mounting holes in the deck are misaligned.
- The All New Short Stand is virtually maintenance free. The fulcrum mechanism no longer requires adding grease or cleaning to ensure optimal use and there are no longer any anti-rattle clamps/ roller clamps to adjust. The only routine maintenance is to add oil to the hinges.
- New Short Stand does not have option for handrails

Model No	Description	Price
10006	New Short Stand, 16' MX	$POR
10007	New Short Stand, 16' DX	$POR
10008	New Short Stand, 14' DX	$POR

Please note:
The New Short Stand does not have option for handrails

1 & 3 Meter Stands, *by Duraflex*

- Can be installed at an existing pool without the need for costly excavation.
- The stand consists of a ladder assembly, fulcrum assembly and main support assembly.
- The major components are heavy duty aluminum castings coated with epoxy power coating.
- The ladder assembly features wide comfortable steps with replaceable slip resistant treads.
- Hard-anodized forged aluminum hinges mounted to a heavy cast anchor plate provide the attachment points for diving boards.
- These stands come with double stainless steel handrails on both sides.
- The 1 meter stands are manufactured in five (5) different heights to accommodate various deck to water levels.
- The 3 meter stands are manufactured in thirteen(13) different heights to accommodate various deck to water levels.
- The deck to water dimensions of the pool, deck slope and diving board model must be provided when ordering. This information is used to determine the correct stand height for your facility. Drawings in .pdf or CAD format can be provided.

Model No	Description	Price
16 10 01	1 Meter Stand w/double handrails both sides	$POR

SR Smith Diving Boards

Recreational Diving Boards *by SR Smith*

Recreational Diving Boards are wood core, covered with a white acrylic shell and have a non-skid finish. Typically they are far less bouncy than aluminum diving boards. They come in 14' and 16' lengths with the same 5/8" bolt holes on 12" centres just like the aluminum boards. The user weight limit is 250 pounds. It is important that these boards be stored inside (dry and above freezing) for the winter. A good alternative where there is no competitive diving.

COMMERCIAL LADDERS

Standard 25" Frame Ladders *by Spectrum*

These are commercial pool grade ladders that will stand up to heavy-duty use. Ladder frames are fabricated of 1.90" O.D. x .065" wall, 304L stainless steel tube with mirror finish. Upper ends of ladder frames are fixed to the pool deck with 2 anchor sockets on 20" centers. In stock set backs from wall of pool are 25", 27", 30", 36" and custom set backs are available if necessary to match your existing anchor locations.

Our ladders include unbreakable HDPE treads with a permanent non-skid surface built in.

For specific applications where heavily used ladders require extra durability upgrade to a heavy-wall ladder. A tubing wall of .109 or .145 will stand up to the most demanding applications.

Anchor sockets for deck and escutcheon trim pieces are not included in ladder pricing, please order separately.

Model No	Description (1.9" OD x .065 wall)	Price
36178-25-.065	2-step 25" ladder-Cross braced	$1336.50

Spectrum uses premium grade 304L stainless steel. The "L" means low carbon. Upgrade to 316L is available.

Grab Rails *by Spectrum*

Grab Rails are deck mounted, 304L grade stainless steel handrails for use when the pool steps are embedded in the pool wall. In wall steps and removable Grab Rails are most commonly used in pools with bulkheads. These Handrails are normally sold in pairs, and come in 4 standard configurations to suit almost any deck style. Handrails can be 1.9"OD or 1.5"OD, and wall thickness can vary depending on the rigidity required. With the different designs and different setbacks almost any deck can be accommodated.

Custom designs available. The four standard styles are shown below.
Price on Request.

POOL BLANKET/COVER SYSTEMS

Thermal (King) Swimming Pool Covers *by Spectrum*

Used in indoor and outdoor applications on your pool or hot tub

Each pool cover/blanket is customized for your pool's shape, existing storage roller system and any customization around stairs, railings, features

- Available in all shapes and sizes, cut outs and flaps to accommodate stairs or railings
- Reduces energy consumption by maintaining pool temperature
- Reduces facility building maintenance and pool cleaning costs
- Reduces corrosion of indoor facilities
- Reduces chemical & water consumption
- Proper design and robust equipment to ease everyday use by facility staff
- Weighted edges available for outdoor applications
- Long life UV stabilizer protection coating on both sides of the cover
- Grommets, loops and ties included
- Up to 7 year warranty is available

Bitterroot Winders, pool cover storage *by Spectrum*

These portable pool cover storage rollers are designed for commercial everyday use.

- Made from electropolished 304L stainless steel
- 6" diameter polyethylene castor wheels
- Two foot operated brakes
- Maximum width 20' tube(s)
- Structurally designed to support wet blankets
- Optional Cover available
- Three configurations available:

Cover

Single Winder

Double Winder

Triple Winder

Heatsavr *The Original Liquid Pool Cover*

Heatsavr is a biodegradable liquid pool cover that prevents heat loss by forming an invisible layer on the pool surface. Application is dosing 1 oz of Heatsavr per 400 square feet of surface area daily. The recommended dosage for hot tubs is one ounce per 50 square feet of surface area daily.

Will not affect pool chemistry, controller probes or mechanical equipment.

Not suitable for windy outdoor applications.

FLOOR MATTING

Plus Factory Freight

Heron Walk

Made from strong, non-porous flexible PVC with channelled underbars, Heron Walk automatically self drains, especially in areas where there is a large amount of water. Visually it's similar to Heron Rib, but the top bars run in the opposite direction. Designed for use with bare feet and works especially well on an inclined ramp. The one-piece construction means Heron Walk can be quickly rolled out where needed and is easily cut to fit on site. This material is UV resistant, anti-microbial and great for use outdoors to elevate feet off hot surfaces. Available in Ocean Blue and Charcoal Grey.

Item No	Description	Price
16 30 40	Heron Walk 91cm x 1220cm (3'x40')	$2116.75/roll
16 30 41	Heron Walk 122cm x 1220cm (4'x 40')	$2822.35/roll
16 30 42	Heron Walk 91cm x 1524cm (3'x50')	$2645.95/roll
16 30 43	Heron Walk 122cm x 1524cm (4'x 50')	$3527.95/roll
6+ Rolls. Additional discount available.		

Heron Rib

Ocean Blue **Grey**

Mulberry Red **Oxford Blue**

Designed for aquatic centers, this PVC matting features 4 way drainage, built-in anti-bacterial additives and above all it its very comfortable to walk on. The material is available in rolls 33 feet long in three widths. This matting conforms to slopping floors and is very easy to cut and form. The profile height is 10mm (just over 3/8"). This matting is long lasting, tolerates chlorinated water and cleaning chemicals. If you have an area that puddles whether a hallway, shower room or deck area. All colors use black lower ribbing.

Item No	Description	Price

16 30 12	Heron Rib Matting Roll 36 inch by 33 feet	$1653.00/roll
16 30 13	Heron Rib Matting Roll 48 inch by 33 feet	$2156.70/roll
6+ Rolls. Additional discount available.		

Floorline

Floorline's open grid and embossed surface delivers excellent drainage and traction underfoot, while the antifungal properties protect bare feet in changing areas and recreation centres. This makes Floorline perfect for any environment where liquid and water is present, like slippery walkways and swimming pool surrounds. Made from a single layer of flexible PVC, Floorline is incredibly lightweight, making it easy to carry, move and lift for cleaning – a great choice for aquatic centre pool decks, changerooms, and transition areas! Available colors include: Red, Blue, Green and Beige.

Item No	Description	Price
16 30 80	2' wide x 33' Long Roll	$860.00
16 30 81	3' wide x 33' Long Roll	$1290.00

Floorline Water Polo

Tri-coloured floorline water polo mat makes defining water polo lane lines quick and easy. The etched surface ensures slip resistance while providing excellent drainage. Available in either 2' or 3' wide rolls in 15 meter long rolls with colours already integrated/spliced together. Red is 2m, Yellow is 4m, and green is 9m. Quick laydown for field set up. The floorline matting is light weight making it easy to deploy for competition and equally as easy to roll up, carry and store until needed.

Item No	Description	Price
16 30 90	2' roll x 15m Tri-coloured Roll	$1398.70
16 30 91	3' roll x 15m Tri-coloured Roll	$1798.60

Herontile

Snap together 13" x 13" tiles, (33cm x 33cm) made from soft Ethylene Vinyl Acetate. These interlocking tiles are 15mm tall providing excellent drainage.
The embossed surface provides slip resistance, and the antimicrobial properties assist with hygiene.
Ideal for poolside walkways, locker/change room surfaces, and shower areas.
Available in four colours: Beige, Ocean Blue, Light Blue and Light Grey(not shown)

Model 723/27 27mm height x 100-380mm wide
Model 723/35 35mm height x 100-500mm wide
Model 760/22 22mm height x 110-399mm wide

Emco Corner Options

Duradek Grating

Price on Request

Duradek Grating is a composite of fiberglass and thermosetting resin-resulting in an extremely durable product. The pultruded T-Bar type grating not only structurally strong, but low maintenance, non-conductive, resistant to chipping and cracking, skid resistant, rigid and has an aesthetically pleasing appearance. Each bar is locked together both mechanically and chemically ensuring the bars won't come loose or move.

This product can be configured and trimmed to suit a wide variety of drainage, trench and gutter systems in both Perpendicular and Parallel set ups. For example it can be trimmed to suit a 22mm profile height, which allows this to fit gutters designed for Astral or other 22mm height grating.

Small retrofit or renovation projects to large entire perimeter is possible with this product. (please allow upto 12-14 weeks for supply of this product)

Comes in white or light grey.

WATERPLAY®

SPRAY FEATURES FOR YOUR AQUATIC CENTRE

KEY FEATURES:

- Focus on creating safe & accessible features
- Stainless steel pipe for long term performance
- Durable powder coating for superior chip and fade resistance
- Acetal nozzles are durable and eliminate corrosion
- Industry leading warranty
- ASTM compliant

We can work with any size project or budget

With over 30 years of aquatic innovation, and thousands of installations worldwide, rely on Waterplay to provide the best solution for your facility. Together let's create a happier and more active community by offering innovative features in your facility. Waterplay has developed features for the thrill seekers, budding explorers and the young at heart.

WATERPLAY®

Activity towers and waterfall interactive tables are perfect for shallow end beach entry areas. These features create play opportunities with the interactive swivel weirs and waterfall effects.

WATERPLAY®

Ascend, spin, slide, SPRAY & SPLASH! Designed for children and their families, Activity Towers by Waterplay provide hours of hands on engaging fun for all.

Stand Alone Spray Features, great for replacing single features throughout your facility.

CLIMBING WALLS

Kersplash Challenger™

The newly designed Kersplash Challenger pool climbing wall is now available. Add fun for all ages to your pool in both indoor and outdoor applications.
It is available in 2, 3 or 4 panel heights and are modular to fit most space and deck configurations. The Kersplash Challenger pool climbing wall is constructed of a powder-coated stainless steel frame and UV resistant panels. The see-through panels eliminate visual barriers on the deck behind and hold an attractive visual appeal to any pool setting. Translucent blue or green panels are also available.

Features:

- 8, 12 or 16 foot climbing height
- Designed to last in harsh indoor and outdoor aquatic settings
- Powder-coated stainless steel frame
- Modular, scalable design
- Easy Installation
- Custom Logo's and powder-coating options available

Requirements:

- 35"x48" or 51"x48" deck footprint. Based on wall height
- 5'-9' feet of pool depth is recommended.
- Pool depth determines allowable climbing height.
- 4' clearance behind the wall for walkway
- 5' clearance either side of the wall
- 10' drop zone recommended

Contact our office for more information and a quote for climbing walls

AquaClimb Climbing Wall

Turn your pool into an adventure playground!
Climbing walls are great for indoor or outdoor municipal pools, country clubs, university pools to name a few. Climbing walls provide physical and mental benefits to engage patrons of all ages and skill levels. The versatile hand holds can be rotated to offer new options to keep your wall interesting and your visitors guessing. AquaClimb pool climbing walls provide unique, safe fun.

Various panel styles and configurations are available to suit your facility and budget.

Krystal: Is the entry price point with flat clear polycarbonate panels

Ice: Using same frame as Krystal, but the panels are textured or 3D to enhance aesthetics. These panels allow lifeguard visibility behind the wall, but offer some privacy to the climber.

Kurve: Premium option with unique wave like frame which is taller than the Krystal or Ice walls.

Sport: This all caters to the more daring participants with a challenging climb up to 27feet. This innovative design includes a single panel with a sleek industrial frame.

$POR

Note: Due to variations in local codes, obtain approvals before ordering and installing.

Aquazip'n

Combinging the thrill of a zip line with the fun of a rope swing and to top it all off you get to plunge into the pool!
Only 4 feet of depth is required, this is an easy addition to your pool. This will amp up the fun at your facility for patrons of all ages.

- High Throughput –Launches riders into the water quickly to keep the line moving. The trolley is self-retracting for quick setup for the next rider.
- Minimal Footprint – Requires little deck space with its sleek frame that hangs out over the water, and doesn't interfere with regular programming
- No Water Source – You can position anywhere you have a minimum of 4 feet of water depth.
- Activates the deep end – The AquaZip'n attracts tweens and teens to the possibly under-utilized deep end of your pool
- Easy to install – 3 piece system comes pre-fabricated for quick assembly and installation.
- Made in the US – Designed, engineered and manufactured in North America to conform to all industry standards

Mighty Voyager *by Aqua Creek*

The ADA Compliant, UL Certified, Mighty Voyager lift is an affordable portable lift that provides access to in-ground and some partially raised pools and spas with curbs or walls up to 10-inches high. The low profile design makes this lift easily blend in at any pool, and being portable, the lift can easily be rolled on its large 6-inch rubber casters to be stored away from the pool without the need for a separate transport cart. The large 15-inch square opening in the ballast cover allows for easy filling and removal of the sand counter-weight through use of a vacuum or bucket if necessary. This lift comes complete with an ADA fixing anchor to meet U.S. Federal ADA regulations. Colour options are Blue, Tan or Gray.

Shipping weight is 425 pounds and ships via truck.

- **ADA Compliant**
- UL Certified to Pool Lift Standards
- 325 lb. (147 kg) weight capacity
- Whisper quiet 255-degree rotation
- Flip up armrests
- All stainless steel construction
- Durable powder coat finish in multiple colors
- Five year pro-rated electronics warranty
- Five year structural warranty
- Made in USA
- Pull out leg rest (optional). Used to prop up legs to clear wall

Model No	Description	Price
F-VGRPL	Mighty Voyager lift	$14,162.70
F-423CS	Chest strap	$51.85
F-LRB	Pull Out Leg Rest	$729.90

Mighty Voyager Portable Lift

Scout Excel lift *by Aqua Creek*

The Scout Excel pool lift is an ideal choice for in-ground and partially raised pools and spas. The improved design of this lift incorporates a whisper quiet rotation base with the robust lifting design of its predecessor, the Scout 2. This rotation base gives you more freedom to set the lift further back from the edge of your pool. Colour options are White/Blue, White/Tan, White/Gray, or White/White.

When combined with the adjustable seat height and a full 360° rotation in either direction, the Scout Excel allows you to clear short curbs or walls up to 26-inches high. The Scout Excel accomplishes all of this while providing a clean, sleek look.

When ordering replacement batteries, there are two types of operating systems from Aquacreek Vito and Linak. The battery must match the control box and the charger. (replacement actuators and hand sets are interchangeable)

- **ADA Compliant**
- UL Certified to Pool Lift Safety Standards
- 375 lb. (170 kg) weight capacity
- Whisper quiet 360 degree rotation
- Adjustable seat pole
- Flip up armrests
- All stainless steel construction
- Durable powder coat finish
- Limited five (5) year warranty
- Made in the USA
- Pull out leg rest (optional). Used to prop up legs to clear wall

MISSOULA LADDER

Boseman Ladders *by Spectrum*

These ladders are made with 1.5" OD tubing so the handrails are easy to grip and the treads are heavy duty fiberglass with a non-skid finish. They require 1.5" wedge anchors cemented in the deck for mounting just like regular ladders so will only fit in the anchor location, but can be removed if required. Anchors and escutcheons not included, must be ordered separately. Custom made to your pools required dimensions.

Model No	Description	Price

BOSEMAN LADDER

Aqua Step Heavy Duty (HD) Access Stairs

These pool stairs are designed for use where temporary access or removal of stairs is required. Once lifted out of the pool, they can be wheeled away for storage. Each stair system is custom made to suit your pool gutter configuration, depth, and pool floor slope. The top step comes with 2 brackets with fasteners and 2 hand knobs to secure to deck. This fastening system can be adjusted to suit grating location on your deck. Each stair or tread is 10" deep and 30" wide, with stainless steel braces for a 500lb load rating. The number of treads can be customized to adjust riser height. Handrails are plastic coated aluminum and do not overhang over the deck. These stair systems are shipped knocked down, therefore assembly required when received. Side shielding and stair riser shields are optional but recommended. Check with your local health authority on requirements.

A measure guide is required to be completed and submitted to generate a quote and to process an order.

TOT DOCKS

Deluxe Tot Dock

This Tot Dock was designed to be the most easily removed on the market. It weighs just 75 pounds and with folding legs can be easily removed by one person. The platform is 38" wide and 60" long and the height is adjustable to 12", 14", or 16". It has a non-skid surface and optional 28" high hand rails are available. There are plastic bumpers on the edges to protect the pool edge and with the folding legs can be easily stored flush against a wall taking up very little space. The tot dock is made of marine grade aluminum coated with a high visibility non-skid finish and the railings are aluminum reinforced PVC. Each Tot Dock comes with one long and one short rail. Tot docks come with fasteners so that two or more can be fastened together to make larger platforms of any configuration.

ANTI-WAVE RACING LANES

Since 1971, Anti-Wave products have been designed and manufactured to dispurse waves along the lane line to create smooth water for high performance. They have been used in multiple Olympics and are a top choice for competitions across North America. Each lane line is equiped with the unique Supertensioner, and there are two size disks options: 4.75" Forerunner or 6" Maximum.

Forerunner Lane Lines

- 4.75" Disk diameter
- Made of UV stable resin plastic which reduces fading and deterioration in outdoor applications
- All lane lines come equipped with a Supertensioner to tighten
- Available in standard or custom lengths
- Disk colours: Dark blue, royal blue, light blue, silver, grey, white, red, green, black, yellow, orange, maroon, teal, purple.

20 01 06	50M assembled comes with 2 Supertensioners	$1931.15	$1802.40

ANTI-WAVE SUPERTENSIONER & REPLACEMENT PARTS

The Supertensioner lane line tightening device is unique to Anti-Wave. It does not require a wrench for tightening process. It is designed to rotate the cable rather than winding onto a drum, making it easy to adjust with a few twists. The Supertensioner dimensions are: 14" half way extended 11" fully condensed and17" fully extended. Made of UV stable resin plastic which reduces fading and deterioration in outdoor applications. Disk colours: Dark blue, royal blue, light blue, silver, grey, white, red, green, black, yellow, orange, maroon, teal, purple.

(OK to mix sizes for quantity discount)			

Aquafit Water Noodles

Aquafit Noodles are made from premium quality Ethafoam for good durability. These noodles are tougher than standard noodles yet flexible enough to be an good match for Aquafit class requirements. Aquafit noodles are 3" in diameter and 72" long.

Item No	Description	Price	15+
23 14 01	Aquafit Noodle 3" x 72" - White	$26.25	$19.05

Aquatic Instructor Mat

Most aquatic instructor associations are now recommending use of an instructor's mat on deck to give aquafit instructors a safer surface from which teach classes. At 36" by 58", this premium heavy duty mat will stand up to years of service and give a good solid footing to demo moves. Colours may vary. Weighs 33lbs.

Item No	Description	Price
23 17 01	Aquatic Instructors Mat	$272.70

All products in this section are offered for sale only to commercial public pools where use will be supervised. This excludes all residential, hotel/motel and other semi commercial applications.

NOTES:

TERMS AND CONDITIONS

Prices
Prices are subject to change without notice. Please call us to confirm pricing before ordering.

Please check our website for the most current pricing.

Tariffs Note: At the time of printing, prices listed do not include any potential tariffs. Please contact our sales department for more information regarding tariffs.

Taxes
All sales are subject to provincial and federal taxes where applicable. (HST, PST, GST)

Minimum Order
$25.00

Terms
Net 30 days

Credit Policy
All cities, towns, municipalities, and governments may place orders without prior credit.
New accounts are required to complete and submit our credit application.
We accept visa, mastercard and American Express.

Returned Goods
We can accept returns on items that are unused, new in package, and in sellable condition. Returns are less shipping & handling costs. Some items have a 25% restocking charge. Custom or special order items are not returnable.
Please contact our office to discuss prior to returning any items.
Please include copy of your invoice and/or packing slip that the item was purchased on.
Returns must be within 30 days of original sale.

Freight
Freight is added to the invoice unless otherwise specified.

Damaged Freight Claims
If any merchandise is lost or damaged in transit, the receiver must file a claim with the carrier and inform us of the issue. Claims must be filed within the time limit and according to the regulations allowed by the carrier.

Quotations
Contact our sales department for quotations, including budget quotes for capital planning.

Consulting and Estimating Services
A fee of $205.00 per hour applies when customers request on-site quotations and estimates. On receipt of the order this fee will be credited back to the customer.

Labour
Our standard shop labour rate is $115.00 per hour.
Service calls are $205.00 per hour including travel time.
